

HOUSEHOLD GOODS BILL:

Pentagon Asks Capitol Action

(A Look at the Hill, Page 3)

The Defense Department, which has asked Congress to vote equalization of retired pay, has sent two other legislative proposals to Capitol Hill for early consideration.

One affects the free importation of per-

HOT LINE

It won't be identified as such, but President Eisenhower's fiscal '61 military budget will seek funds for purchase of more than \$1 million worth of tranquilizers.

That's the value of the current pill consumption in the Armed Forces.

sonal and household effects. Temporary authority, now in effect, would expire 30 June 1960.

The second bill relates to the Navy Bureau of Ships.

Pentagon officials told THE JOURNAL that other legislative proposals will be submitted to Congress this month. An effort is being made to submit new legislation as early as possible in view of the

Air Force Will "Control Retire" 5900 Active Duty Reserve Officers In Three Years; First Board Meets In March

(Text Of Official Instructions, Page 8)

ALMOST 6000 Air Force Reserve officers on active duty face forced retirement in the three years beginning 1 July.

A board of general officers will meet at the Pentagon in March to name about 1700 Reservists with over 20 years service for release from active duty and retirement in fiscal year 1961.

A similar number of "controlled retirements," as they are designated, is

scheduled for fiscal '62, with a level-off after that of about 2500 per year.

The new retirement program results from the facts that (1) the Air Force has a "maturing" officer structure with thousands of WWII veterans in a narrow group; and (2) the need to meet reduced manpower ceilings.

Air Force officials have said in the past that without a forced retirement program, it would be impossible to provide a satisfactory promotion program to

meet operational requirements.

The Air Force estimates that an optimum officer structure requires a total of 3280 officer retirements in fiscal '61; 3770 in fiscal '62; and 5050 in the next three fiscal years.

Many will come from normal attrition, but not enough to prevent forced retirements.

Air Force officials explained this week that "unless such action is taken, a large

Roosevelt Roads Picked For Mission In Support of Atlantic Polaris Firings

U. S. NAVAL STATION ROOSEVELT ROADS, P. R.

(Army Missiles in Puerto Rico, Page 4)

The unstable political situation in the Caribbean area and the needs of the modern missile Navy have combined to single out this station as the primary reliance of U.S. naval forces in the Caribbean.

Under command of Capt. Onia B. Stanley, Jr., Roosevelt Roads has been assigned full responsibility for all air-to-air and surface-to-air missile training for the Atlantic Fleet.

In the near future, this station is expected to be given the mission to support all operational practice firings of Polaris

missiles in the Atlantic.

Roosevelt Roads may also have to take over many of the functions now carried out by the naval facilities at Guantanamo Bay, Cuba, and Chaguaramas Naval Station in Trinidad.

Of the three major naval installations

AN EDITORIAL SURVEY

CINCPAC Task Vital To U. S. Defenses; Needs Strengthening, Modernization

NEVER in peacetime has a United States military force been charged with a task of such enormity as that being carried out by our Pacific Command.

• Its responsibility is to protect the United States from aggression across the Pacific and to work with our Free World friends in that vast area to preserve their freedom.

• Its area of cognizance runs westward from the American continent to the perimeter of Red China and the center of the Indian Ocean, and north and south from Pole to Pole.

• Its enemy is the militantly aggressive Communist regime which holds 650 million people on China's mainland in an iron grip and speaks to the Free World through the cannon's mouth.

The U. S. defense problem over this half-the-globe area differs in many respects from that facing us in Europe.

In Europe we are bound to our Free World friends in an over-all NATO military alliance which has weathered more than 10 years. In the Far East there is no such all-embracing working arrangement; our forces bear the brunt of burden.

Instead of a single working agreement such as NATO, relations with our friends in the Far East is a network of bi-lateral treaties and understandings which differ from country to country, plus the SEATO alliance which embraces a group of the nations in the Southeast Pacific and the ANZUS Pact including Australia and New Zealand.

In Europe we work with industrialized nations whose people are highly

MEDICARE PAYMENT

Following publication in last week's Journal of a letter from an Air Force Colonel telling how a dispute over medical bills involving about \$10,000 left a Service family without Medicare protection, Defense Department Medicare officials this week issued a statement urging military families to reach a "clear understanding" on fees. The full text of the statement is published on Page 25.

Second Fleet Change

VADM. William R. Smedberg, III, left, who will be the new Chief of Naval Personnel, discusses plans with his successor as Second Fleet and NATO Striking Fleet Atlantic Commander, VADM. Harold T. Deuterman, prior to change of command ceremonies aboard the missile cruiser Northampton. Admiral Smedberg succeeds VADM. H. P. Smith, slated for four-star assignment as CinC of the Eastern Atlantic and Mediterranean Command at London.

Outstanding Couple

L.T. COL. Wesley W. Posvar, Professor and Head of the Department of Political Science at the U S Air Force Academy since May 1957 who at the time of his appointment at age 32 was the youngest full professor ever assigned to a Service academy in modern times, has been chosen one of the nation's 10 outstanding men under 35 by the Junior Chamber of Commerce.

Colonel Posvar who ranked no. 1 of 875 in the USMA '46 class, was the first Air Force officer to be awarded a Rhodes Scholarship and earned both bachelor and master of arts degrees at Oxford University.

Mrs. Posvar, known professionally as Mildred Miller, has been a leading mezzo-soprano with the Metropolitan Opera Association since 1951. The Posvars have two children, Wesley William, 9, and Margot Marina, 5.

Service Chairmen Have Long Service

THE Chairmen of the House and Senate Armed Services Committees, together with their four ranking lieutenants who will handle major military personnel legislation in the second session of the 86th Congress, are completing a combined total of 143 years of action on Capitol Hill.

Almost one-third of this impressive longevity record has been compiled by Chairman Carl Vinson (D-Ga.) of the House group. He is completing 46 years' service in Congress.

For 29 of those years, Mr. Vinson has been Chairman of the old Naval Affairs Committee or Chairman or ranking minority member of the Armed Services Committee.

ARMY SCHOOL LISTS

The Army this week released the names of officers chosen for top Service schools, including the National War College, Industrial College of the Armed Forces, and the Army, Navy, and Air Force War Colleges. The lists are published on Page 21.

Army Chooses 19 For Permanent M/G

The Army has named 18 line permanent brigadier generals and one MC officer, Thomas J. Hartford, for permanent two-star rank.

They will be promoted in order of seniority as vacancies occur.

Two permanent MC colonels, Clinton S. Lyter and Joseph H. McNinch, were named for Regular brigadier general rank.

Lt. Morelli Is Aide

First Lt. Donald R. Morelli has been named Aide-de-camp to Brig. Gen. John H. Dudley, Assistant Commandant, Army Engineer School, Ft. Belvoir, Va. He is a '56 graduate of West Point.

TAIWAN TO STEWART

Brig. Gen. Lester S. Bork, Chief of the Army Section, MAAG, Taiwan, will be assigned to the Army Armor and Artillery Firing Center, Ft. Stewart, Ga. in May.

Brig. Gen. William E. R. Sullivan, Acting Deputy Army Chief Chemical Officer, Washington, D. C., has been named President of the Chemical Corps Board, the Army Chemical Center, Edgewood, Md.

Signal Corps Procurement Branch Chief Retires

Col. Edwin G. Fritz, Chief of the Procurement Branch, Procurement and Distribution Division, Office of the Chief Signal Officer, has retired after a career which began with the National Guard when he was 16 years of age.

Colonel Fritz is a graduate of the Signal Officer Advanced School at Ft. Monmouth, N. J., and of the Army Supply Management Course at Ft. Lee, Va. He served as Executive Officer, Deputy Commanding Officer, and Commanding Officer of the Decatur Signal Depot, Decatur, Ill., from early 1955 through 1957.

Before assuming his present position last July, he also served overseas, both in Europe and the Far East, and was an Army member of the Electronics Production Resources Agency.

Colonel Fritz resides with his wife in Alexandria, Va. They have a son, William.

Next Week

A Caribbean survey, which saw a JOURNAL staff member filing dispatches for this week's issue from Puerto Rico, will be followed up in the 16 January with on-the-scene reports from Panama.

Service families will want to follow closely the results of a meeting at the Pentagon next week at which Defense Department officials will discuss with industry representatives new regulations relating to movement of household goods. The new rules give families a greater say in determining the moving company to handle a particular shipment.

Congressional action will be moving forward to full speed following the convening this week of the second session of the 86th Congress. In an election year, the legislators will want to handle as much military legislation as early as possible. The 16 January issue of THE JOURNAL will feature action reports and behind-the-scenes comments from Capitol Hill.

Huachuca Deputy Ends Active Career

Col. Edmund T. Bullock, Deputy Commander of the Army Electronic Proving Ground, Ft. Huachuca, Ariz., has retired.

A native of Pleasant View, Ky., Colonel Bullock, who holds a degree in Mechanical Engineering from the University of Kentucky, entered active duty in 1941.

In 1955 and 1956 he served with Headquarters, Joint Task Force 7, which conducted atomic tests. Since October 1956, Colonel Bullock has served as Deputy Post Commander, Chief of Staff, Deputy Commander for Technical Programs, and for the past year as Deputy Commander of the Army Electronic Proving Ground.

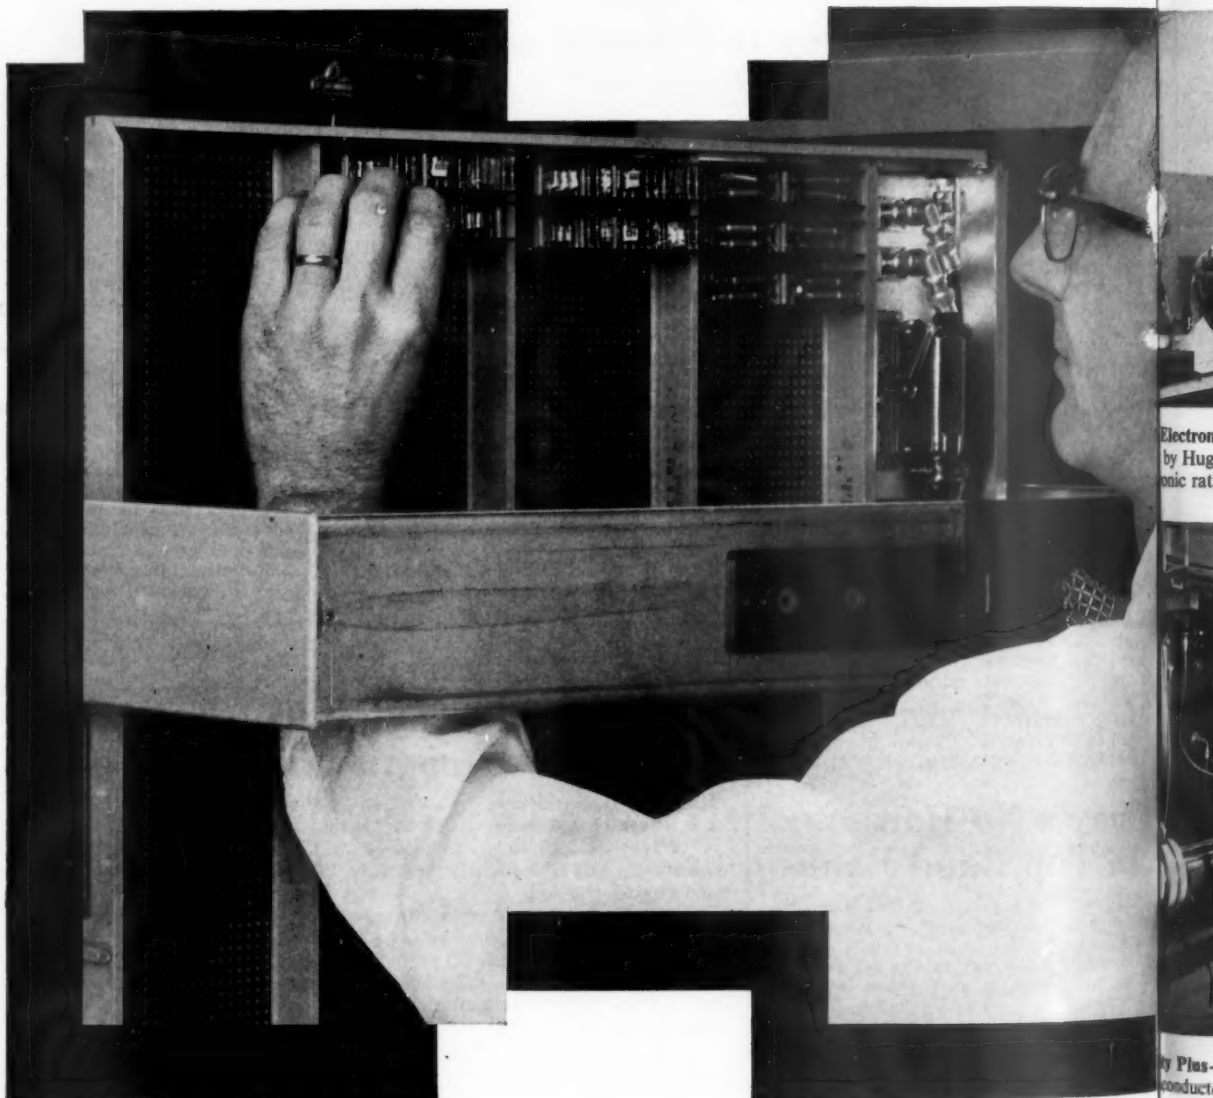

Sec'y Brucker Will Highlight "Posture" Report With Far East Trip Details

SECRETARY Wilber M. Brucker is scheduled to return 22 January from an inspection trip to the Far East, and will be called upon that week by the Senate Armed Services Committee for a "posture" report on the Army.

This report is certain to be highlighted by his reactions of the trip to the Pacific. Accompanying the Secretary are Lt. Gen. R. W. Colglazier, jr., Deputy CofS for Logistics, and Col. George M. Seignious, II, Executive to the Secretary.

The Secretary's group also includes Col. John R. Guthrie, Assistant Executive; Col. Joe S. Lawrie, from the Office Deputy CofS for Personnel; Col. K. B. Lemmon, jr., Office Deputy CofS for Operations; Lt. Col. H. Glen Wood, Military Assistant to the Secretary; Capt. John R. Davies, Aide to the Secretary; and Mrs. Sarah Kelleher, Secretary.

Packing circuits to circle

Senate And House Slate Defense "Posture" Hearing As New Session Begins

CONGRESS moved back into Washington this week in a peaceful procession that will contrast sharply with the stormy election-year session ahead. Early attention will be focused on the Armed Forces, the \$41 billion defense budget and the approaching missile-gap. President Eisenhower's State of the Union Message, released too late for THE JOURNAL deadline, will be followed 18 January by comprehensive hearings into the Defense "posture" by the Senate Armed Services Committee. Shortly thereafter probably beginning about 20 January, similar briefings will be presented before the House Armed Services

Committee.

Following established custom, it can be expected that Chairman Richard B. Russell (D-Ga) of the Senate Committee will hold his meetings in secrecy while House Armed Services Committee Chairman Carl Vinson (D-Ga) will throw open his doors to the public for all but classified presentations by top Defense Department officials and the Joint Chiefs of Staff.

On the same day the Senate Committee briefings begin, the President will send his annual Budget Message to Capitol Hill. In this presentation, he is expected to make a strong appeal for

equalization of retired pay and to ask for appropriations to cover the \$24.5 million cost in fiscal '61.

This will be preceded by a report from Chairman F. Edward Hébert (D-La) of the House Armed Services Investigations Subcommittee (expected about mid-January) outlining the findings of his inquiry into the employment of retired officers by defense industries. Chairman Hébert, who will not arrive in the Capitol until about 13 January because of the Louisiana primary, simultaneously will introduce legislation to carry out the objectives of the Subcommittee's recommendations.

The bill or bills could be taken up by the full Committee or referred to the Kilday House Armed Services Subcommittee for further study.

Representative Paul J. Kilday (D-Tex), who returned to Washington several weeks before the new session got underway, already has his Subcommittee staff hard at work on background details of the "White Charger" career officer management proposal, the recommended changes in the Uniform Code of Military Justice and other important personnel legislation which he is expected to schedule for early hearings.

Similar preparations are underway in the Senate where the Stennis Armed Services Subcommittee is gearing for action on the House-passed term-retention-contract, and ROPA-amendments.

Chairman Overton Brooks (D-La) of the House Committee on Science and Astronautics will open extensive hearings this month in an attempt to determine why the United States "is lagging behind in the exploration of space" and what can be done about it.

This subject and continuing charges concerning the missile-lag threat also will be tackled by Senate Majority Leader Lyndon Johnson (D-Tex) who heads the Senate Committee on Aeronautical and Space Sciences as well as the Armed Services Preparedness Subcommittee.

Hearings on the big Defense Department appropriations bill also will be scheduled for an early date. Capitol Hill sources said the House hearings, which must of necessity come first, may get underway as early as the 18th, promised date of the Budget Message.

With the Democratic Nominating Convention set for 11 July, Chairman George H. Mahon (D-Tex) of the House Military Appropriations Subcommittee must set a fast pace in getting the Pentagon funds program approved and ready for consideration by the Senate Military Appropriations group headed by Senator Dennis Chavez (D-NM).

Capitol Action

From first page—

election-year objective of an early adjournment.

THE JOURNAL issues of 19 and 26 December and 2 January told complete details of the \$10 million bill which would equalize retired pay effective 1 February.

The household goods bill would make permanent the authority of persons returning to the U. S., under government orders, to bring in personal and household effects without customs charges.

The Pentagon measure also seeks exemption authority for a person in the service of the U. S. who is ordered between posts outside the customs territory of the U. S. and who elects to return his personal and household effects to the U. S., although not returning himself.

At present, Treasury Department regulations administratively provide an exemption in this situation.

The Pentagon told Congress that termination of the household goods authority "not only would impose inequitable administrative burdens upon persons evacuated to the United States but it would remove an important morale factor."

Declaring that legislation voted in 1940 has "outlived its usefulness," the Pentagon has asked Congress to remove a requirement that one of the two top officials of the Bureau of Ships (the Chief and Deputy Chief) must be specially qualified and experienced in naval engineering and the other in naval architecture.

Secretary of Defense Gates commented on the problem as follows: "It should not be necessary, upon the appointment of a new Chief, to terminate the Deputy Chief's tour before its normal expiration date simply because both the Deputy Chief and the newly appointed Chief happen to be 'specially qualified' in the same field.

"Under present law," said Secretary Gates, "the premature termination of the Deputy Chief's assignment is necessary under these circumstances and an instance of this recently occurred."

irne world

"Project Cordwood" is a new Hughes Communications Division activity which has successfully produced low-cost, widely interchangeable circuit modules. (Note photo on left-hand page). These advanced modules are allied to Hughes automatic wire-wrapping techniques which result in more compact, more reliable equipment.

Other projects, such as the development of systems which deflect signals from meteors and artificial satellites, reflect the dynamic growth of Hughes in advanced communications. To stimulate even more progress this activity is now a separate major entity...the Hughes Communications Division.

Advanced work has already extended past the simple transfer of information to the use of information to supplement man's abilities where human resources are inadequate.

From basic theory through development and to the actual creation of working hardware, the systems approach is typical of all Hughes activities...which cover the spectrum of electronics progress: Airborne Electronics Systems, Space Vehicles, Plastics, Nuclear Electronics, Microwaves, Ballistic Missiles and many others.

In every Hughes activity you will find reliability is of prime importance. Hughes has delivered over \$2 billion in electronics, systems and components...all built to assure maximum usefulness under even the most severe operating conditions.

Advanced concepts...reliable hardware, these are the factors which have made Hughes one of the world's largest producers of advanced electronics.

the West's leader in advanced electronics

Col. Kendall Leaves Depot After Receiving "Patroon"

Col. Bruce E. Kendall, Commanding Officer of Schenectady, N. Y., General Depot since June 1958, has received the highest award that city can make, the honorary title of "Schenectady Patroon."

Colonel and Mrs. Betty Jane Kendall and their daughter, Ann, will reside in Washington, D. C., where he has been assigned to the Office of the Deputy CofS for Logistics at the Pentagon.

M/G Biddle In Chicago

Maj. Gen. William S. Biddle, formerly Senior Member of the U. N. Military Armistice Commission in Seoul, Korea, is the new Deputy CG of the Fifth Army in Chicago. He succeeds Maj. Gen. Joseph H. Harper, USA-Ret.

Prior to joining the Armistice Commission in May 1959, General Biddle, 59, USMA '23, had commanded III Corps and Ft. Hood, Texas. Before that, from June 1955 to July 1957, he served in Tokyo as Chief, MAAG, Japan.

General and Mrs. Biddle, the former Madelin Lang, daughter of Brig. Gen. and Mrs. John W. Lang of Washington, D. C., have three daughters, Susan, Edith and Christina. They reside at Ft. Sheridan, Ill.

Col. Shoemaker, L/C Pessa Get New Belvoir Duties

Col. William S. Shoemaker has been named Post Inspector General and Lt. Col. Joseph J. Pessa is the new Post Procurement Officer at Ft. Belvoir, Va.

Colonel Shoemaker had served for seven months as Assistant to the Belvoir CofS, and before that as III Corps Engineer, Ft. Hood, Texas.

Colonel Pessa has served since November 1957 as Post Inspector General, and prior to that as Commanding Officer of the 521st Engineer Maintenance and Supply Group, Seventh Army, Europe.

MISSILE SITES SEEN FOR PUERTO RICO

FT. BROOKE, P. R.

Brig. Gen. John H. McGee is looking forward to the day when his Army Antilles Command with headquarters here gets into the missile business.

He foresees the day when there will be a requirement for Army missile launching, guidance and interception sites in Puerto Rico.

Army activities in Puerto Rico originally were planned primarily as a defense of the Panama Canal.

As an operational activity, this function has long since disappeared. Planning for the defense of the Canal, however, is still part of the mission of the Army Command here.

Activity of the 1,200 military and 1,400 civilians who compose the Antilles Command is centered about three major functions: support and training of the approximately 1,900 Reserve and 7,539 National Guard members in Puerto Rico; training Puerto Rican inductees in English before they are sent to the ZI for their basic military training; and logistical support for the Navy and Air Force.

The best description of his command, says General McGee, is that it is a "combination military district headquarters and logistics command."

In its planning functions, General McGee's organization must assume responsibility for possible operations in Cuba, the Dominican Republic, Puerto Rico, the Antilles and the northern coast of South America.

The results of this planning recently showed itself in operations to evacuate American families from Haiti, and in the movement of elements of the 101st Airborne Division from Ft. Campbell, Ky., to Puerto Rico during Vice President Nixon's "good will" tour of South America.

"We're getting into the missile age," General McGee pointed out, "and during the next five to ten years there will be a rapid development of missiles."

"There will be a requirement for missile launching, guidance and interception sites in Puerto Rico," he said.

Engineers study section of cable containing dummy amplifier being payed out. Life preserver inscription stands for "Bell Laboratories Dry Land Cable Ship Fantastic"

★ Come aboard the FANTASTIC! ★

A ship that never sails helps Bell System engineers devise the best way to lay undersea telephone cables

The telephone cables which now connect America with Europe, Hawaii and other distant places have proved enormously successful.

Soon more will be needed — to link other continents, and to handle the ever-rising volume of overseas calls. But the new and lighter cables now being tested call for entirely new cable-laying techniques and equipment.

To save time and money, and permit studies of the problem under controlled

conditions, a mock-up of a cable-laying ship—dubbed the *Fantastic*—has been built on a New Jersey hilltop some twenty-eight miles from the nearest salt water. There, most days, you will find Bell Laboratories engineers busily testing the new methods and equipment they have devised.

Winches whine as long sections of cable are pulled up from the "hold" and payed out "overboard" as if the *Fantastic* were truly at sea. Flying

gaily from a yardarm are maritime signals warning other vessels to stay clear.

Elsewhere in the Laboratories, experiments show how to grip the cable and control its speed, what happens as it sinks into the sea, how fast it should be payed out to fit the ocean bottom snugly. Still other studies plot the hills and valleys of the ocean floor where the cable will eventually be laid.

The result—telephone service across the ocean as good as your own local service. It is progress like this which is the purpose of our constant research and experimentation in all fields of communications.

BELL TELEPHONE SYSTEM

New Army Majors

The following 33 captains were promoted to temporary major in S.O. 255, effective 30 December. They extend through No. 714 on the Army Promotion List in Circular 624-66, dated 14 September 1959.

ROA Names Chaplain Connelly For Top Honor

The Reserve Officers Association will
 present Col. John K. Connelly its Chaplain
 of the Year Award at the National Council
 Mid-Winter Banquet 5 February in
 Washington.

Chaplain Connelly will share honors
 with Col. Bryce Harlow, USAR, Congres-
 sional Liaison Assistant to President Ei-
 senhower, who is to receive ROA's
 "Minute Man of 1960" award.

Chaplain Connelly, now on duty in Ger-
 many, was chosen because of his outstand-
 ing work over the years.

Space wagons with nuclear horses

Space exploration will really come of age when manned rockets can leave
 earth, accomplish their missions and return without disposing of parts of
 themselves en route. This breakthrough depends on the rapid development
 of both nuclear rocket engines and the space vehicles capable of using
 them. Douglas is putting forth a major research effort in the area of manned
 nuclear ships. Every environmental, propulsion, guidance and structural
 problem is being thoroughly explored. Results are so promising that even
 if the nuclear engine breakthrough comes within the next five years, Douglas
 will be ready to produce the vehicles that will have the ability to utilize
 this tremendous new source of space power! The wide experience of
 Douglas in producing large aircraft and rocket systems has given it un-
 matched capabilities in the missile and space fields.

Elmer Wheaton, Engineering Vice President, Missiles and Space Systems,
 goes over new space objectives that will be made possible by nuclear
 propulsion with Arthur E. Raymond, Senior

Engineering Vice President of **DOUGLAS**

Navy Will Triple Missile Fleet In '60; Congress Has Authorized 75 Ships

THE Navy's fleet of missile-armed ships—submarine and surface—will almost triple by the end of 1960.

Closing out 1959 with a rush, the Navy on 30 December commissioned two nuclear-powered vessels, the Polaris submarine *George Washington* (SSBN-598) and the *Halibut* (SSBN-587), the only atomic submersible designed to fire the Regulus I missile. (THE JOURNAL 2 January).

Addition of the two atomic-powered submarines brought to 12 the number of guided-missile ships in commission. If current construction schedules hold firm, the total will jump to 33 by January

1961, 49 by January 1962 and 55 by January 1963.

Through Fiscal Year 1959, the Navy had received from Congress authorization to convert and to build 68 nuclear and non-nuclear missile ships. Of the 68, three are aircraft carriers, 12 cruisers, 20 frigates, 19 destroyers and 14 submarines.

The Fiscal 1960 budget contains authorization for construction of three frigates, three destroyers and conversion of one cruiser.

This brings to 75 the total number of guided-missile ships.

The missile program was pioneered by the submarines *Cusk* and *Carbonero*

which engaged in missile firing as early as 1948. Both were capable of firing the Loon missile, an adaptation of the German V-I "Buzz Bomb," at targets 150 miles distant. The Loon development program was replaced by the Chance Vought Regulus program. The first submarine to fire the Regulus was the *Tunny* in 1953. The last Regulus I missile was delivered to the Navy in December 1958 when the Regulus II development program was cancelled because of budget restrictions.

The Navy had planned a total of five Regulus-firing nuclear submarines, the SSGN's 587 (*Halibut*), 594 (*Permit*), 595

(*Pollock*), 596 (*Plunger*) and 607 (*Dace*). Only the *Halibut* was completed as a Regulus submarine. The other four were redesignated attack submarines (SSN's).

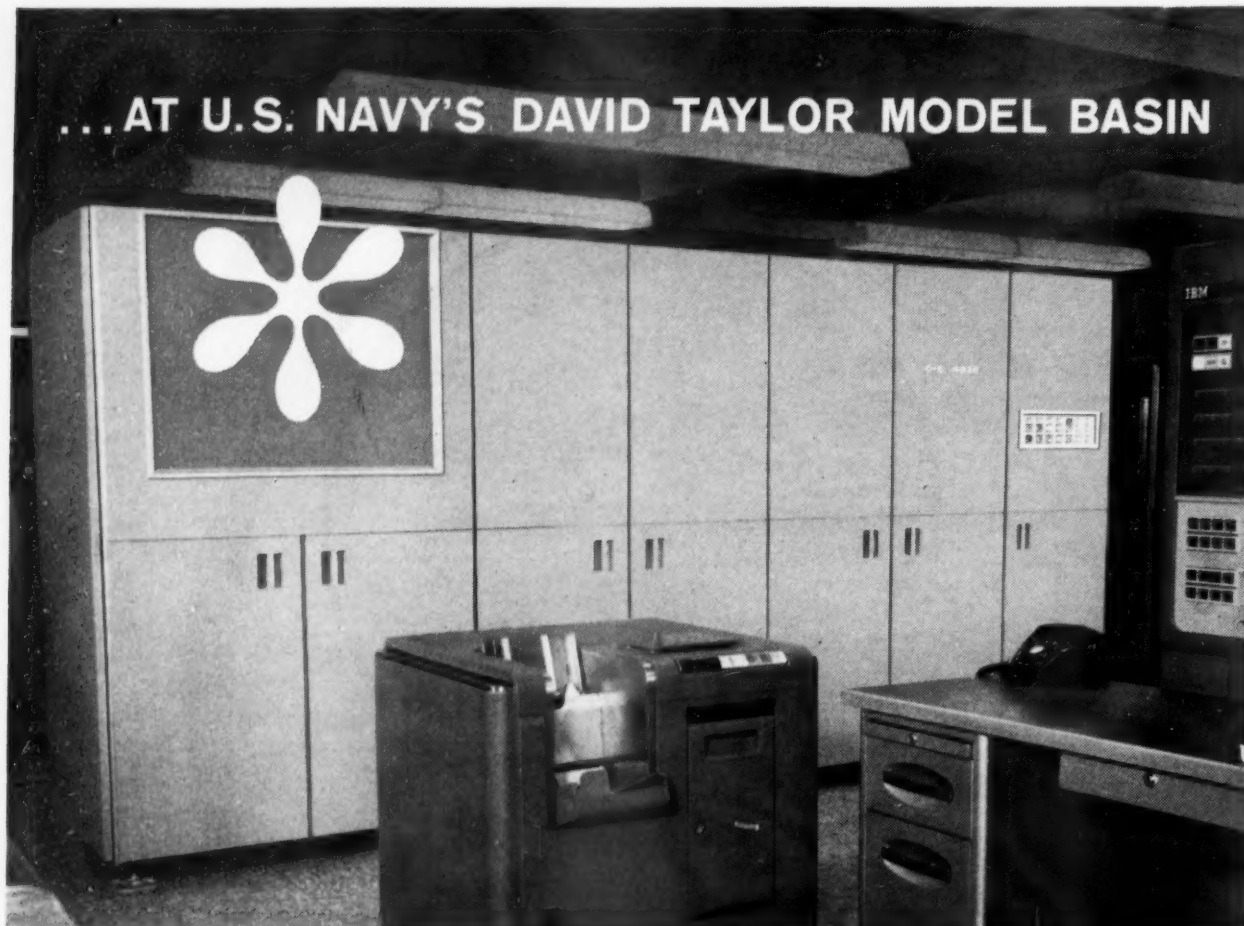

In addition to the A-powered *Halibut*, there are four conventionally powered submarines in commission which fire the Regulus I. They are the *Tunny* (SSG-282), the *Barbero* (SSG-317), the *Grayback* (SSG-574) and the *Growler* (SSG-577).

Although many surface ships are capable of firing Regulus I, the only submarines with Regulus capability are officially given "G" designations by the Navy. The cruisers *Helena* (CA-75), *Los Angeles* (CA-135), *Macon* (CA-132) and *Toledo* (CA-133), are equipped with Regulus launching equipment, but do not bear the "G" designation which puts them in the missile-firing class. In fact, all aircraft carriers could be considered to have Regulus-firing ability, since launching equipment can easily be installed.

In addition to one Polaris SSGN, the lone Regulus SSGN and the four Regulus SSG's, there are six surface missile ships currently in commission—the heavy cruisers *Boston* (CAG-1) and *Canberra* (CAG-2); the light cruisers *Galveston* (CLG-3) and *Providence* (CLG-6); the frigate *Dewey* (DLG-14); and the destroyer *Gyatt* (DDG-1)...

All surface ships in commission fire the Convair-developed surface-to-air

...AT U.S. NAVY'S DAVID TAYLOR MODEL BASIN

FASTEST COMPUTER READOUT MICROFILM PRINTER IN USE TODAY!

FIFTEEN THOUSAND plotting points or alphanumeric characters per second are being recorded now on the Stromberg-Carlson S-C 4020 high-speed microfilm printer at the U.S. Navy's David Taylor Model Basin in Carderock, Md. Either on-line or off-line operation is provided.

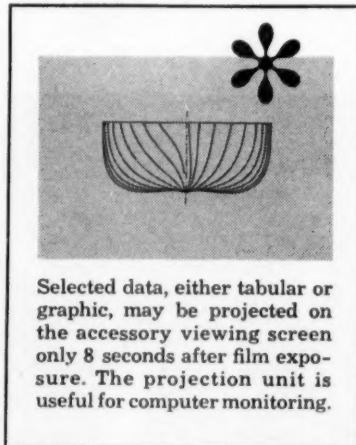

At the David Taylor Model Basin, the S-C 4020 is used in the applied mathematics laboratory for the solution of various Naval problems including ship design, hydrodynamics, structural mechanics and nuclear reactor design. It is ideal for all kinds of high-speed computer printing, filing and archive storage.

In typical graph plotting applications, the S-C 4020 can save as much as

\$4,840 a month. Assume that an average of 2,100 graphs with 375 points each are required each month. Twenty-five engineering aids can do this work by hand at an estimated cost of \$8,800 a month. One S-C 4020 high-speed printer can do the same work for a capital expense of \$3,960—a saving of \$4,840 a month.

Printers similar to the one in use by the U.S. Navy are coming off the production line right now. You can have your own printer saving hundreds of valuable man-hours within 6 months.

LITERATURE AVAILABLE — Write to Dept. A-25, Stromberg-Carlson-San Diego, 1895 Hancock Street, San Diego 12, California.

Selected data, either tabular or graphic, may be projected on the accessory viewing screen only 8 seconds after film exposure. The projection unit is useful for computer monitoring.

Puerto Rico Base Polaris Test Center

From first page—

which support the defense of the Panama Canal, the Guantanamo Bay and Trinidad facilities have been threatened with closing.

Commander of the Naval Base at Guantanamo Bay is RAdm. Frank W. Fenno. The Naval and Naval Air Stations there are commanded by Captains Paul H. Bjarnason and Carl W. Schoenweiss, respectively.

Capt. Earl A. Luehman is in command at Chaguaramas, the fate of which will soon be decided at a conference of U. S., British and West Indies Federation officials.

All Caribbean Naval bases are under the jurisdiction of RAdm. D. V. Gallery.

A JOURNAL FIELD DISPATCH

He wears the three hats of Commander, Caribbean Sea Frontier, Commandant, Tenth Naval District, and Commander of the U. S. Antilles Command.

Besides responsibility for Naval operations in Puerto Rico, Admiral Gallery's charge also extends to Cuba, Haiti, and the Dominican Republic, the Antilles and the Northern Coast of South America.

Interviewed by THE JOURNAL in San Juan, Admiral Gallery stated that "before long, Roosevelt Roads will be the major guided missile training center in the Atlantic."

"I certainly anticipate that submarines will be down here (in Roosevelt Roads) two missile firing areas) firing Polaris for training."

In January and February, Atlantic Fleet units will begin firing the Talos and Terrier missiles from the Roosevelt Roads ranges. Within the next year they will also be training here on the Sidewinder, Zuni, Tartar and Sparrow III missiles.

Moline Gets Navy Order

The Materials Handling Division of Minneapolis-Moline Company has received Navy orders for \$3.2 million in tow-tractors and fork lift trucks.

J. Russell Duncan, President, said the new Division of Moline will build approximately 1,000 tow-tractors of 4,000 pound draw-bar pull and fork lift trucks of 4,000 and 6,000 pound lift capacity.

Navy Will Promote Warrants In '60

Selection boards to promote Regular and Reserve Navy warrant officers will convene 10 May.

Eligible are officers with the following dates of rank or earlier: to CWO-2, 30 June 1959; two CWO-3 and CWO-4, 30 June 1957.

Selectees will be assigned dates of rank as follows: WO-1's with dates of rank of 1 July 1958 will receive CWO-2 warrants dated 1 July 1960; remaining WO-1's will be given dates of rank which will be the second anniversary dates of their current dates of rank.

Commissioned warrant officers whose dates of rank are 1 July 1956, or earlier, will be assigned 1 July 1960 dates of rank in the higher pay-grade; remaining CWO's will receive dates of rank which will be the fourth anniversary of their current dates of rank.

Radm. Gallery Fears Carib Base Losses

U. S. NAVAL STATION
 SAN JUAN, PUERTO RICO

LOSS of the U. S. Naval Station at Chaguaramas, Trinidad, would seriously harm U. S. defenses of the Panama Canal, according to Radm. D. V. Gallery, Commander of the Navy's Caribbean Sea Frontier.

In an interview with THE JOURNAL at his headquarters here, Admiral Gallery

lery said, "we're not going to get land from anybody in the West Indies to establish more. We'll have to move many of our operations up to the States, I suppose."

Admiral Gallery pointed out that much training of the Atlantic Fleet in the Caribbean is done during February and March. A considerable amount of this is supported from the Navy facilities Guantanamo Bay.

Some, but not all of this training could be transferred to the Naval Station at Roosevelt Roads, Puerto Rico, he said. If the U. S. Navy is forced out of Cuba, it may be necessary to replace the present two-month yearly training with a year-around operation.

At the present time, the Admiral said, the Naval Station in Trinidad "is not very active and is in reduced status."

But, he stressed, "it would be absolutely vital in case of war."

A U. S. pull-out from Trinidad, he said, "would have very adverse effect on our ability to protect the Panama Canal."

A JOURNAL FIELD DISPATCH

expressed fear that loss of U. S. Naval installations in Trinidad and at Guantanamo Bay, Cuba, would harm vital U. S. defenses and disrupt the training activities of the U. S. Atlantic Fleet.

"If we lose these bases," Admiral Gal-

help on investing

for those in service
 at home and overseas

Could you use another source of income?—For your children's education, a retirement fund, or to help you stretch your service pay further?

To achieve these goals, thousands of service men and women have turned to Harris, Upham's Armed Forces Department for help in selecting dividend-paying common stocks, whose value tends to keep pace with living costs.

Our Armed Forces Department under General John E. Dahlquist (Retired) is experienced in helping military personnel with their specialized investment problems. It is backed by nationwide brokerage facilities in 36 offices from coast to coast—along with Harris, Upham's well-regarded Research and Mutual Fund Departments.

Our MILITARY INVESTMENT MANUAL describes our services, and explains the fundamentals of investing. If you are interested in extra income, you may obtain a free copy of this useful booklet simply by filling out and mailing the coupon below.

Text Of Air Force's Dispatch 'Twenty-Ten'

(The following is the text of the official Air Force communication concerning implementation of "Project Twenty-Ten," the program calling for controlled retirement of Reserve officers. See story, Page 1.)

1. Reference is made to letter, this Headquarters, subject: "Controlled Retirement of Reserve Officers," dated 30 December 1959, which announced the policy and explained the necessity for this program. This letter contains instructions for implementation of the program for Fiscal Year 1961. Instructions for continuation of the program in subsequent years will be dispatched as necessary.

2. The program will be known as Project Twenty-Ten. All correspondence in connection therewith will refer to this name for identification purposes.

3. To maintain an optimum officer structure within manning and budgetary limitations, the total number of officer retirements required during Fiscal Year 1961 has been computed as 3280. If past trends continue, the Air Force cannot expect to attain this number through voluntary or normal mandatory retirements of Regular and Reserve officers. The remainder must be obtained through Project Twenty-Ten.

4. Reserve commissioned officers below the grade of General officer who meet the criteria below will be screened for retention on active duty. These officers will be categorized as provided in paragraph 5.

a. Officers who will have completed 20 years' active Federal military service, including 10 years' active Federal commissioned service, on or before 31 December 1960 will be considered for controlled retirement and may be placed in Category I, II or III.

b. Officers who will complete the above amounts of service between 1 January 1961 and 30 June 1961 will not be considered for controlled retirement during Fiscal Year 1961. However, those who elect voluntary retirement will be placed in Category IV. Those who do not elect retirement will not be reported.

5. Each Reserve commissioned officer below the grade of General officer who is or will become eligible for voluntary retirement under Section 8911, Title 10, U. S. Code on or before 30 June 1961 will be interviewed to determine if he intends to apply for retirement during Fiscal Year 1961, and, if so, the quarter of that year in which he will request his retirement to become effective. Upon completion of the survey, the major commander will categorize the officers of his command as follows and report them to this Headquarters as required by paragraph 11.

a. Category I—Officers with TAFMSDs on or before 31 December 1940 not electing voluntary retirement in Fiscal Year 1961 who should receive first priority consideration for retention based on criteria outlined in paragraph 6 below. (Not more than 50 per cent of the total officers in Categories I and II may be placed

in this Category.)

b. Category II—Remaining officers with TAFMSDs on or before 31 December 1940 not indicating intention to apply for voluntary retirement.

c. Category III—Officers with TAFMSDs on or before 31 December 1940 who elect to be voluntarily retired in Fiscal Year 1961.

d. Category IV—Officers with TAFMSDs between 1 January 1941 and 30 June 1941 who elect to be voluntarily retired in Fiscal Year 1961.

6. Major commanders will use the following considerations to categorize each Reserve officer falling within the provisions of paragraph 5a and b, above:

- Essentiality to the unit mission
- Possession of critical skill
- Outstanding performance
- Specialized knowledge of a particular project

7. It is recognized that officers in travel, TDY or other special status may not be available for the survey. These officers will be reported in Category I or II by their command of assignment as of 31 December 1959. It is also recognized that there are officers whose applications for retirement will not normally be approved because of restrictions imposed by AFPMP Message 151884, dated 18 November 1958, or because they have a service commitment under the provisions of AFR 36-51. Such officers will be reported as desiring retirement if they so indicate. They will be informed, however, that restrictions normally will not be waived unless the officer is otherwise selected for controlled retirement.

8. A board of senior officers will be convened at this Headquarters to select officers for retention. For guidance, it is anticipated that all Category I officers will be retained. Officers in Categories III and IV whose retirement is not restricted will be approved and, to the extent possible, they will be programmed for retirement during the quarter they select. Additional attrition, if necessary,

SAC Board Studies "Below Zone" Majors

The Strategic Air Command's temporary lieutenant colonel promotion board convened 11 January at Offutt AFB, Neb. to review records of more than 2,600 "below the zone" majors.

Criteria for eligibility in the secondary zone is at least 14 (but less than 18) years of Active Federal Commissioned—for Reserves—or Promotion List Service for Regulars, and a date of rank of 31 December 1955, or earlier.

The board, composed of 12 colonels and one brigadier general, will be in session for 10 days. It will forward its results to USAF in early February.

The SAC board will not review the records of all officers in the primary zone (18 years AFCS or PLS and two years in grade) since it is mandatory that the USAF board with a few exceptions consider officers in that category.

SAC Gets Set For Hound-Dog, Hustler, More Atlas And Titan ICBM Units In '60; Airborne Alert Support Was A Major Feature Of '59 Progress; Year Reviewed

THE Strategic Air Command, under General Thomas S. Power, ClnC, is looking ahead to a year which will see the introduction of the first Convair B-58 Hustler; operational status for the North American Hound Dog missile aboard the Boeing B-52 bomber; and the addition of more Convair Atlas and Martin Titan ICBM units to combat-ready status.

As 1959 came to a close, SAC received fiscal support from Washington to prepare for the start of an airborne alert.

The following is a summary of 1959 accomplishments prepared by SAC Headquarters at Offutt AFB, Nebr.

A look back at the past year shows a multitude of important changes in the Strategic Air Command. Pausing briefly after becoming an all-jet bomber force in 1959, SAC went on to become an aerospace force of bombers and missiles during the same year.

On 9 September, less than seven months after SAC became an all-jet bomber force, its missilemen launched the first operational Atlas intercontinental ballistic missile from Vandenberg Air Force Base, Calif.

Missiles on Both Coasts

In addition to the Atlas, SAC also took over a wing of Snark intercontinental cruise missiles at Presque Isle AFB, Maine, during 1959, giving the command a long-range missile base on both coasts of the United States.

And there was a promise of more missile bases to come, as construction crews made tremendous gains toward completion of Atlas and Titan ICBM sites at 11 other bases in Wyoming, Colorado, Kansas, Nebraska, Washington, Idaho, South Dakota, and California.

Stepped-up plans for the Minuteman ICBM, a solid-propellant and highly-mobile strategic missile, were announced by SAC during 1959.

General Power Honored

As a result of this stepped-up missile activity and of SAC's role in keeping the peace during the 13 years since its activation, General Thomas S. Power, SAC Commander in Chief, was presented the Air Force Association's H. H. Arnold Award in September and named AFA's "Man of the Year."

During 1959, SAC was put directly under the control of the Secretary of Defense in a move designed to streamline operations and reduce SAC's reaction time. The move put SAC on the same footing as the North American Defense Command, permitting the nation's No. 1 offensive and defensive forces easier access to the United States' decision-making machinery.

SAC received a modified version of the B-52—the B-52G—during 1959, giving it the Free World's first missile-firing strategic bomber. Carrying a GAM-77 Hound Dog air-to-surface missile under each wing, the B-52G gives the Stratofortress a triple punch of nuclear weapons—the two Hound Dogs, plus the payload in the bomb bay.

The B-52G also has an increased range, since it can carry fuel within the wings. The unrefueled range of this advanced bomber is 8,000 miles, compared with 6,000 miles for earlier models in the B-52 series.

Through air-to-air refueling, of course, any of SAC's B-52 or B-47 bombers can fly indefinitely, limited only by crew fatigue.

ARDC announced on 1 September that the Atlas was ready for firing by SAC crews and turned over control of the missile to SAC missilemen at Vandenberg AFB.

Eight days later, SAC crews fired their first successful Atlas, and General Power announced that the missile was operational. In October, Maj. Gen. David Wade, Commander of SAC's 1st Missile Division, announced that the Atlas crews at Vandenberg were combat-ready and that the SM-65 was now standing 15-minute alert, along with SAC bombers on

four continents.

The Atlas joined nearly one-third of SAC's entire B-47 and B-52 fleet, which had been ready to take-off on 15 minutes' notice—or less—since October of 1957. As a further step toward gearing the United States' retaliatory striking force toward survival in the missile age, SAC began small-scale indoctrination of its B-52 crews in a new alert procedure—the airborne alert.

Under this concept, a certain per cent of the command's heavy bombers re-

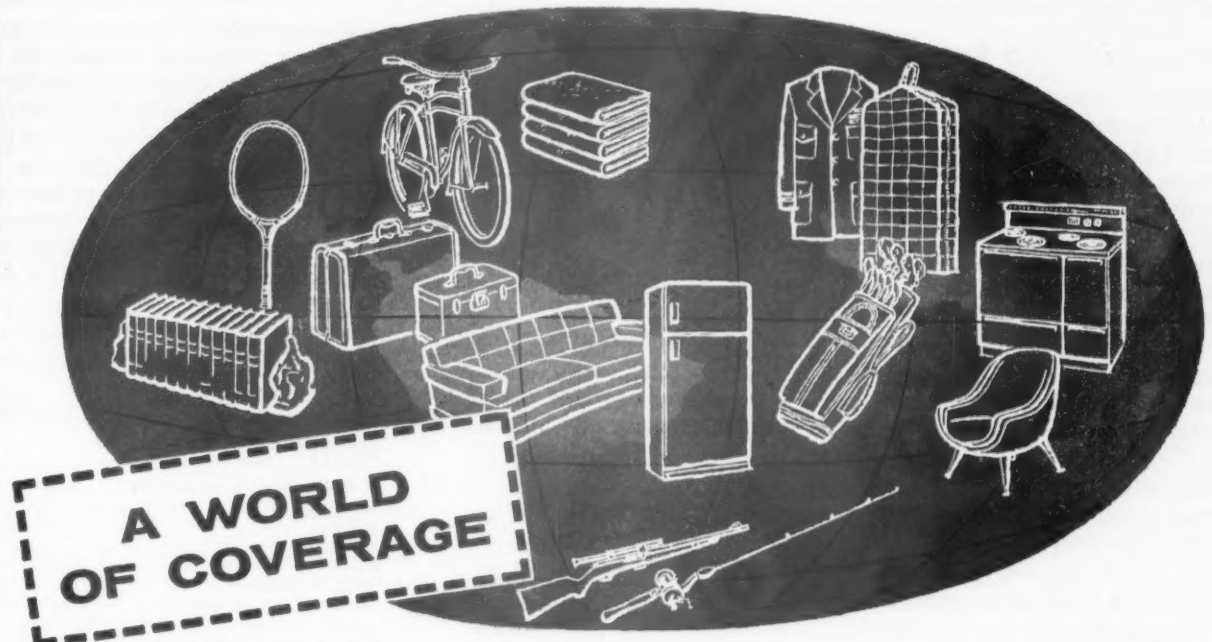

mained aloft and ready to go, 24 hours a day, seven days a week. Former Defense Secretary McElroy told Congress in March that SAC was capable of going into an airborne alert, adding that neither he nor the President felt that the operation was necessary at that time.

A Look to the Future

As a result of testimony by Secretary McElroy, General Power, and other top military men, a Congressional commit-

tee appropriated enough money for SAC to begin an airborne alert when necessary.

And now that 1959 is past, the Strategic Air Command is looking confidently to 1960. This year will see the introduction of the first B-58, the addition of more Atlas and Titan ICBM units to combat-ready status, and above all, SACmen and women throughout the world striving to maintain the command's slogan, "Peace Is Our Profession."

Now USAA will insure your Valuables anywhere in the world

Over the years we all accumulate valuable personal effects which, if destroyed or lost, would require considerable cash to replace. USAA, the non-profit insurance association serving the services since 1922, now offers a WORLD WIDE FLOATER to protect your household and personal effects.

This new policy is so inexpensive that no officer of the US Armed Forces can afford to be without the protection that it offers. The small cost of this policy is further reduced at year end when USAA returns a dividend, currently 27.5%.

With this new USAA WORLD WIDE FLOATER there are no geographical restrictions. There is no adjustment in premium because of change in location of your goods. You enjoy protection everywhere in the world.

The USAA WORLD WIDE FLOATER covers personal effects owned by you, your wife and dependent members of your family.

You are insured against the hazards of fire, lightning, windstorm, hail, explosion, riot and civil commotion, smoke or smudge, vehicle or aircraft damage, accidental escape of water and transportation hazards; also, theft, pilferage, larceny, burglary, robbery, holdup and embezzlement.

Fill in the coupon to order insurance today or for descriptive booklet.

UNITED SERVICES AUTOMOBILE ASSOCIATION

Charles E. Cheever, Colonel, USA - Retired, President

Dept. AJ-9, USAA Building, 4119 Broadway, San Antonio 9, Texas

The USAA Membership is limited to active and retired officers, cadets, and warrant officers of the following Services of the United States of America: Army, Air Force, Navy, Marine Corps, Coast Guard, Public Health Service, Coast and Geodetic Survey; officers and warrant officers of the National Guard and the Reserve components, when ordered to extended active Federal duty and as long as they retain their commissions, and Foreign Service Officers of the Department of State. The widows of such officers and warrant officers may insure with USAA so long as their status is not changed by remarriage.

TYPE OF COVERAGE	
COVERAGE 1 — Fire, Lightning, Windstorm, Hail, Explosion, Riot & Civil Commotion, Smoke or Smudge, Damage by Vehicles or Aircraft, Accidental escape of Water, and Transportation. Minimum Coverage: \$1,000 — Maximum: \$15,000	COVERAGE 2 — Theft, Pilferage, Larceny, Burglary, Robbery, Holdup, and Embezzlement. Minimum Coverage: \$1,000 — Maximum: \$7,500
The MINIMUM policy written is a combination of \$1,000 Coverage 1 and \$1,000 Coverage 2. NEITHER COVERAGE WILL BE WRITTEN ALONE. Either coverage may be written for higher amounts.	
Complete this column if you desire insurance now	
*Insurance commences the postmarked time of an order. Policy will be dated the day following postmarked time unless a later effective date is requested.	
Issue policy effective* _____ for Coverage 1 \$ _____ (date) and Coverage 2 \$ _____	{ fill in amounts of coverage desired

No JCS Letter-Signing This Year

The Joint Chiefs of Staff this year are going to be spared the professional embarrassment of having to say in writing that the defense budget proposed by the Administration is "adequate to provide for the essential programs necessary for the defense of the nation for the period under consideration." The Chiefs were put under pressure to sign such a document, dated 19 January 1959, which added that "they find no serious gaps in the key elements of the budget in its present form, but all have reservations with respect to the funding of some segments of their respective Service programs."

THE JOURNAL published the letter in the issue of 7 February after it had been downgraded on 25 January from "Confidential" on the authority of Brig. Gen. Carey Randall, USMC-Ret., Military Assistant to the Secretary of Defense. We followed this up by obtaining and publishing an exclusive article in the 7 March issue which detailed the "reservations" of the respective Chiefs.

The intent of the "no serious gaps" letter obviously was to dampen Congressional protest over cuts in the Fighting Forces. But the plan backfired. Congress demanded full particulars as to the "shortcomings" of the budget in the professional assessments of the Service Chiefs.

Happily, the Chiefs will not need to sign any double-talk budget letter this year. But we certainly hope, letter or not, that Congress will be just as relentless as it was last year in insisting that the Chiefs spell out in detail the impact on combat readiness of cuts which have been made in the new defense budget.

Although the total money to be sought for fiscal '61 will be virtually unchanged from this fiscal year, rising costs of weapons and a continuing inflationary trend that could become much more serious as a result of developments in the steel industry will force further reductions in the Fighting Forces. Some cuts have already been ordered in anticipation of the fiscal '61 action.

No military man, certainly no member of the JCS, has any right to resist a decision of the to Commander-in-Chief. But under our form of Government, every military man called to testify before a committee of Congress has the duty to give to the Senators and Representatives full benefit of his professional judgement.

Congress must seek this counsel. There won't be a miscalculated letter this year to signal the "reservations" of the Chiefs.

The Legislators Return From The Field

During the late summer and autumn months of 1959, scores of Senators and Representatives visited with elements of the U. S. Fighting Forces in the United States and overseas. As is inevitable, but happily less so this year than in the past, there has been some criticism of these trips in the press.

We believe, by and large, that the Nation's editors have come to the realization that in order for our legislators to discharge their responsibilities in the defense area it is essential that they see for themselves just what is being done with taxpayers' money—and also what is not being done because of budget and manpower restrictions.

Certainly, there have been some instances where some legislators, particularly in visits abroad, have been more interested in pursuing personal projects than in other more arduous aspects of their missions. But our reports from the field, and our on-the-scene encounters with Members of Congress, show convincingly that, as a group, they are interested primarily in obtaining the facts and impressions on which to make their vital decisions.

We say it's no junket when a Congressman lives and parachutes with our Special Forces unit in Germany, as did Representative Wainwright (R-NY), or at the age of 74 flies a B-52 mission, as did Representative Sheppard (D-Calif), whose photograph was published in the 26 Decem-

ber issue of THE JOURNAL. Most of the Congressmen who have gone abroad have made it a point to visit and often to live with our fighting men in remote posts. This has been an important contribution to morale.

The few Congressmen who demand special favors and benefits often receive publicity they do not want as a result of work by alert reporters, and this is as it should be. Much less publicized is the devotion to their official duties of most of our legislators who visit with the Armed Forces between Congressional sessions.

Pay Equalization Needs A Push

President Eisenhower and Secretary of Defense Gates will be given the opportunity, if they so desire, immediately to urge the new session of Congress to vote retired pay equalization with a 1 February effective date.

The Chief Executive in past years has included in his Budget Message and other communications to Congress a discussion of matters that affect military morale. And certainly the pay inequities and the break with historic principles of military pay have caused a serious morale problem.

Secretary Gates will have an opportunity in his "Posture" statement to urge quick action on the retired pay proposal, which is widely supported on Capitol Hill. As THE JOURNAL revealed last week, the Senate Armed Services Committee plans to hear Secretary Gates on 18 January. This is much earlier than the start of these hearings in past years.

Unless the top Administration officials press for quick action on the pay equalization bill, there is a danger that the effective date, already extended beyond the President's original target of 1 January, will be delayed beyond 1 February. Congress cannot be expected to take the leadership on what is now, at last, an Administration bill.

READERS' VIEWS

USCOA Shortcomings

■ A revision of the Contingency Option Act is long overdue. Today many officers are making rather sizeable monthly contributions to the government with the prospects of receiving little or nothing in return. Insurance at its best is not a good investment, but good commercial policies do include what might be termed "savings features." These are missing under the COA.

An actual case history will clearly indicate the areas in which improvement is required if the Contingency Option Act is to be a benefit instead of a liability.

A Colonel with 19 years service in 1954 elected to participate in the COA. In 1957 he requested cancellation of this election. In 1959 under pressure of the Hump Bill, he retired. Since his request for cancellation preceded his retirement by only two years, it was not accomplished. To further complicate the situation, he was placed on the temporary disability retired list with a 20% disability, due to injuries to both knees. Due to this physical disability, he was required to pay the increased rate for COA coverage, in spite of the fact that his life expectancy was not reduced, as evidenced by the Clinical Board's findings, that: "General physical examination was normal in all respects except for the extremities."

This 46 year old retired officer now pays \$55.04 per month for COA coverage. With a life expectancy of 70 years, he will invest \$15,851.52. His wife is 5 years his junior and has a life expectancy of 76 years, which indicates that

she will receive the COA benefits for 11 years. At \$122.74 per month, this will amount to \$16,201.68 total benefits received. When you consider that at least \$18,000 commercial insurance can be purchased for \$55 per month, or that Building and Loan Associations are paying 3% interest on deposits, it is obvious that this officer is being penalized for his decision to participate in the U. S. Contingency Option Act.

RETIRED

Command Duty "A Joke"

■ The new directive of the Secretary of Defense requiring joint or combined staff duty in order to qualify for promotion to star rank takes us another step away from what most of us joined the service for—to lead men.

This should be the prime requirement—that is successful command in successive steps from platoon leader to battle group or regimental commander. Command duty as we know it now is a joke.

A hurried one year stopover between staff assignments supposedly gives an officer all the command he needs to become a general officer. This also is causing us to lose many promising young officers, because they are not being afforded the opportunity of serving under real troop leaders but are being improperly led by staff officers in temporary disguise.

Let's put command back where it belongs and make it the prime requisite for any promotion from first Lieutenant to general officer.

Colonel

Cutback In Funds Forces Army To Suspend New Enlistments; Soldier Voting Discussed

10 Years Ago—For the first time in years the Army has suspended the enlistment of recruits with no prior military service. The cutback in military funds has necessitated a reduction in the size of the Army, and reenlistments are sufficient to maintain its reduced strength.

50 Years Ago—The efforts that are under headway to finance the construction of the new Army and Navy Club building in Washington are meeting with more than expected success.

96 Years Ago—The question of soldiers voting was brought up in both branches of the New York Legislature immediately upon the opening of its session, by the introduction of bills providing for the extension of the privilege to all New-York soldiers. The question is one of great interest and importance to military men.

CINCPAC Task Vital To U. S. Defenses; Needs Strengthening, Modernization

From first page—

literate. In the Far East, Japan is our only industrialized associate.

Militarily, the Far East defense's eternal problem is logistics. It is considerably more than twice as far from Washington, D. C., to Southeast Asia as it is from Washington to Berlin. The north-south length of our forward line of defenses in the Pacific—Japan to the Philippines—is roughly equal to the trans-Continental span of the United States. More than 99 per cent of the supplies used by all the forces in the area must be moved by surface ships.

The defense of this vast area is under Admiral Harry D. Felt, USN, Commander in Chief Pacific. He reports directly to the Secretary of Defense through the Joint Chiefs of Staff. All U. S. military forces in the area are under his control, which he exercises through three four-star officers: General I. D. White, USA, CINCUSARPAC; Admiral Herbert G. Hopwood, USN, CINCPACFLT, and General Emmett O'Donnell, jr., USAF, CINCPACAF.

Meet Aggression Locally and Quickly

Admiral Felt's operation is based on what he calls a "Forward Strategy." It is designed to meet aggression where it occurs and quickly.

One element of the Forward Strategy is the long chain of islands running from the Japanese group in the north to the Philippines in the south and including such key links as Taiwan (Formosa), seat of the government of the Republic of China, and Okinawa and the Ryukyus.

All the islands in this forward chain of defenses are under control of our allied nations except Okinawa which is under U. S. administration with Lt. Gen. Donald P. Booth, USA, as High Commissioner. General Booth, is also commanding general U. S. Army Ryukyu Islands and IX Corps. Both by its central position and by our full control over it, Okinawa is looked upon as the "Keystone of the Pacific." On it is based the 313th Air Division commanded by Maj. Gen. Dale O. Smith, USAF, which was the first Pacific unit to get the new Convair F-102 all-weather jet interceptors. Also based there is the Army's 97th Artillery Group (Air Defense), 1st Special Forces Group (Abn.) U. S. Broadcasting and visual activity and technical and administration services which comprise 43 per cent of the Army's strength there and headquarters of the 3d Marine Division commanded by Maj. Gen. Robert B. Luckey, USMC, which has seven camps on

the island, Buckner Bay is a major anchorage for ships of the 7th Fleet.

The other element of our Forward Strategy is our alliance with and assistance to friendly nations in the area. We are aiding and advising local governments in the establishment and build-up of their own defense forces. As these local forces become more powerful, they can take a greater role in defenses. We hope that if aggression comes, they can slow down the attack until help can be brought.

This chain provides bases for our Air Forces, our naval ships, and our ground forces. A network of radar installations provides warning against attack. The bases give us the means of operating combat-ready patrol forces in the danger area and far from our own shores.

The principal combat elements assigned to Admiral Felt are:

Two fleets—the Seventh which is maintained in a constant state of combat readiness patrolling the far reaches of the western Pacific, and the First, based on the West Coast.

Two numbered Air Forces—the Fifth with headquarters in Japan, and the Thirteenth with headquarters in the Philippines.

Three Army Divisions—the 7th Infantry and the 1st Cavalry which are part of the United Nations Command in Korea, and the 25th Infantry in reserve in Hawaii.

Two Marine Corps Divisions—the 3d with headquarters on Okinawa and the 1st on the West Coast.

In addition, there are eight military advisory groups assisting our friends to build their own defenses. These are in Japan, Korea, Taiwan, Vietnam, Thailand, Cambodia, the Philippines, and Laos. The latter is not an official MAAG, but mostly a civilian group to evaluate the use to which U. S. equipment is put.

How Serious Is The Threat?

The threat in Asia is big and constant. In fact, there is no peace in Asia; Red China is pushing and probing constantly, looking for weak spots and exploiting opportunities.

There is no peace in Korea, only an armed truce. South Korean and U. S. troops need only to look across the Demilitarized Zone to see Communist soldiers undergoing maneuvers and manning outposts. The Red surge across the DMZ could come any day.

Across the Straits of Taiwan there is always tension. Red artillery fires intermittently and from Peiping come repeated statements that Taiwan is theirs and that they will retake it.

In Vietnam, likewise in a state of armed truce, there is continuous infiltration of Communist bands from the north, murdering and kidnapping the citizens of Free South Vietnam. War against these terrorists is a day-to-day affair.

Communist subversion and Red-inspired rebellion has kept Laos in a constant state of tension.

Meanwhile, Red China is probing the borders of India.

Free World leaders in the Pacific area point out that, whereas Soviet Russia is talking more softly, fraternizing with Capitalist nations, and emphasizing eco-

nomic rather than military rivalry, Communist China proceeds with a policy of force. They recall that when Premier Khrushchev told his people "we must not test capitalism by the use of force" the speech was broadcast from Russia to China but that when it came to that sentence the Chinese jammed the broadcast.

Numerically, the forces of the United States and her friends in this area are only a fraction of those of the Communists. It is estimated that there are some 3,300,000 Red soldiers in Asiatic Russia, Communist China, North Korea, and North Vietnam.

There are probably about 6,500 Communist aircraft—mostly modern jets.

Russia also operates naval forces, including about 100 submarines, in the Pacific. Some of these apparently are engaged in monitoring the firings of ballistic missiles from Russian soil into the north Pacific.

But to the free peoples of the Pacific, Red China is the threat. The Communist leaders in China are out to gobble up all of Asia, and the United States is their only formidable opposition. They need the industrial capacity of Japan, the rich resources of Indonesia, and the abundant rice fields of Thailand and Burma to feed and provide for their 650 million people. Today China can barely feed herself—a crop failure anywhere means local starvation.

The population of Red China may double in 25 to 30 years and it is this prospect which is a further spur to their aggressive expansionism.

Are Our Forces Sufficient?

The forces provided to CINCPAC to meet this threat have been doing an excellent job. It being a sea area and its commander a Navy man, principal reliance has been placed upon the Seventh Fleet and the aircraft carriers assigned to it. But it is spread thin and its ships must spend long times at sea. The harm to morale is reflected in a low enlistment rate.

Admiral Felt says the Fleet, as well as the other components, is sadly in need of modernization. Top officers in the Pacific Fleet see a great need for nuclear-powered aircraft carriers to ease the problem of constant refueling at sea.

The Air Forces in the Pacific are already too lean and spread out to cope fully with either their problem of air defense or air offense. In any eventuality they would need reinforcements from the mainland. Bigger and more modernly equipped air components are needed. Yet the indications are that when next year's defense reductions are made it will be the Pacific area which suffers in order that we may maintain our present Air Force level in NATO.

There is some hope in the build-up of local air forces. Any progress friendly nations can make in air power for their own defenses can lift some of the burden from the U. S. Air Force. In this respect, the Republic of China's Air Force already has demonstrated what it can do by its 35 to 1 ratio of kills over the Chinese Communists in 1958 battles. Japan's air power is growing, and she is preparing to buy more modern aircraft, such as the Lockheed F-104. Others such as Vietnam (which is barred by the Geneva Agreement from having jets), Thailand, and the Philippines are small but their skills are growing.

Ground Forces Meager

In Army ground forces, the Pacific Command is particularly weak. The two divisions under the United Nations Command in Korea are taut, tough and combat ready, but they are far below strength in U. S. personnel. They are kept combat ready only by the use of KATUSAs—Korean trainees integrated into our ranks.

The only other Army division in the area is the 25th Infantry Division which is theoretically in reserve on Oahu. But only four of its five battle groups are in Hawaii, the fifth is in California.

Furthermore, no one knows where the aircraft would come from to give it the mobility a strategic reserve force should have to make it usable when needed.

In the theater there is a general belief that Admiral Felt would make use of the 3d Marine Division before he would attempt to move the 25th Infantry from Hawaii.

While we are weak in ground forces, that is the area in which our allies are strongest. The Republic of Korea has 20 Regular infantry divisions and 10 in Reserve. The Republic of China has more than 400,000 soldiers organized into 21 infantry divisions, two armored divisions and a number of special units. These are powerful forces, some say more than are needed for defense of their areas.

Japan's 170,000 force is small compared with the problems it would meet in defense of the nation. The Philippines have only one full strength active divi-

MEMO--exclusive G-2 reports to readers of *The Journal*, the Nation's only weekly publication covering the total Defense Establishment.

LOOK FOR THE HÉBERT COMMITTEE to propose a 2-year "cooling off" period on the employment of all retired officers before they can take "selling" jobs with defense industries. Also in the offing is a life-time restriction on jobs which would place officers "on the other side of the desk" from which they operated while in uniform.

A KEY QUESTION WILL BE the definition of "selling." One other possible source of controversy is a reported plan by the Hébert group to seek legislation which would require Service officers employed by defense industries to report their status to the Defense Department, possibly including details as to salary and other remuneration.

A CODE OF ETHICS, suggested by numerous witnesses who testified before the Hébert group, also may be one of the results of the Committee's recommendations. There are new reports, however, that dual employment, dual compensation problems will not be solved by the Committee action. Many in the Services had hoped the Hébert Group would be able to propose unified rules that would liberalize Federal employment opportunities for retired military people.

ALTHOUGH IT HAD BEEN EXPECTED that legislation resulting from the hearings, and due to be introduced by Representative F. Edward Hébert (D-La), would be turned over to the Kilday Subcommittee for legislative action, there is now a strong possibility that Chairman Carl Vinson (D-Ga) will place the recommendations before the full Committee for action.

JCS FRICTION WILL BE EASED as a result of a new memorandum Secretary of Defense Gates has sent to General Nathan F. Twining. The Secretary told the JCS chairman he wants to be notified promptly when there is divergence among the Chiefs. In such a situation, Secretary Gates or Deputy Secretary James H. Douglas, jr., will meet with the full JCS membership to discuss the particular problem.

ARMY SECRETARY BRUCKER DRAWS HIGH PRAISE from General Maxwell D. Taylor in the foreword of the former CofS's newly published and widely publicized volume, "The Uncertain Trumpet" (see Page 14). General Taylor calls his former civilian superior "understanding and courageous" and says of Mr. Brucker, "He has set an example to all of us in uniform of a civilian leader willing to take responsibility and to fight staunchly for any case in which he believed." There were rumors at the Pentagon this week, which were not susceptible to confirmation because Secretary Brucker is on a Far East inspection tour, that he may resign his post after giving early-year testimony on Capitol Hill.

FORMER ARMY UNDER SECRETARY CHARLES FINUCANE, who left Pentagon service and then returned to be Assistant Secretary of Defense for Manpower, is regarded as the most likely choice to be the next Secretary of the Army if Mr. Brucker resigns. Another Assistant Secretary of Defense (Logistics), Perkins McGuire, also is said to be highly considered for possible advancement to Secretary of the Army.

THE AIR FORCE WILL ISSUE late this month revised rules for awarding the Guided Missile Insignia. Hereafter, 6 months duty with a missile unit, instead of 3, will be required. The new rules will exclude units involved in air-to-air and air-to-ground rocketry. The badge will be restricted in most cases to Air Force members associated with ground-launched missiles. The advent of the Hound Dog air-to-ground missile in the SAC inventory (see Page 9) could cause some problems. There have been widespread complaints that major commands were not awarding the badge on a uniform basis and that award on a liberal basis was damaging its prestige.

ONE OF THE YOUNGEST GRADUATES in U. S. Naval Academy history ends almost 43 years' service 1 March when Admiral Jerauld Wright retires as Supreme Allied Commander Atlantic and CinC of the U. S. Atlantic Fleet and CinC Atlantic at Norfolk. He was 19 when he was graduated from Annapolis in 1917.

WIVES OF ARMY AVIATORS are advised in the January issue of the official Department of the Army "Aviation Digest" how they should treat their husbands. "Don't try to remake him," the Army says, "just try to preserve him." An article with the heading "An Appeal To The Ladies" describes their importance to flying efficiency and mentions, among other problem areas, that many Army pilots "leave their castles without adequate breakfasts, only to 'peter-out' in the midmorning. How many times a week do YOU make breakfast for your spouse?" the Army queries.

THERE'S AT LEAST ONE ASTRONAUTICS activity in the Army.

The office of Lt. Gen. Leonard D. Heaton, Surgeon General, includes the Medical Research and Development Command and its Biophysics and Astronautics Branch. The Branch Chief, Lt. Col. Richard R. Taylor, MC, has just been named Chief of the Command's Research Division.

HARD-HITTING MAJ. GEN. JOSEPH D. "SMOKEY" CALDARA, Deputy Inspector General for Safety, has declared that the Air Force can achieve a safety record during 1960 of only 4 accidents per 100,000 flying hours "if every commander and every flying safety officer uses his best tactical unit as an example and a standard." In a report, published in the January issue of the Air Force's "Flying Safety" magazine, he notes that the 1947 rate of 44 major accidents per 100,000 hours was cut to 9.3 for the first half of 1959.

BECAUSE OF JET SPEEDS, however, the Air Force now loses 69% of its aircraft involved in accidents. This compares with about 33% in the 1947 pre-jet period. General Caldara, widely recognized as a foremost authority on flying safety, discloses that during the first six months of last year, 110 Air Force pilots were killed and 55 sustained major injuries. During that half year, the Air Force took delivery of 705 aircraft, but destroyed 269, including 153 jet fighters, the equivalent of 6 squadrons.

SURVEYING THE PAST DECADE, General Caldara presents this tabulation: 3474 pilots killed since 1950 and 7062 aircraft destroyed. "This represents a bigger Air Force which we have thrown away through accidents, than any other country in the world has, except the Soviet Union," the AF Safety Chief reports.

DURING 45 YEARS IN CONGRESS (see page 1), Chairman Carl Vinson (D-Ga.) of the House Armed Services Committee has watched dozens of top military officials and officers come and go. There have been 12 Secretaries of War and 15 Secretaries of the Navy during his tenure, as well as the total slate of Secretaries of Defense, Army and Air Force; Chairmen of the Joint Chiefs of Staff, Chiefs of Naval Operation and Chief of Staff of the Air Force. There had been only five Army Chiefs of Staff and 11 Commandants of the Marine Corps prior to 1914 when Mr. Vinson first entered Congress.

CHAIRMAN VINSON, who for years was a member and head of the former Naval Affairs Committee, has never been to sea on a Naval warship. The Chairman has made only two flights in a military aircraft—both of them in company with the top military leaders of the Nation. Aside from the President of the United States, no other Government official would receive a more carefully arranged reception at a military installation than Representative Vinson, but he makes it a practice of refusing such invitations.

ARMY AVIATION CENTER PEOPLE at Ft. Rucker, Ala., hardly know what to expect next from Lt. Col. Howard I. Lukens. He is responsible for introduction there of skin diving and sky diving. Now, he is a leader in promoting the sport of soaring and, with some other Army pilots, has purchased a sailplane.

SAC ASSIGNMENT STABILITY will be enhanced as a result of a new order which states that officers will complete at least 24 months on station prior to reassignment. Exceptions will be made for compassionate reassignments, officers detailed to PCS schools, or crew members reassigned overseas as an integral unit. SAC's Director of Personnel, Maj. Gen. W. K. Martin, must approve all exceptions to the 24-month policy.

PROGRESS HAS BEEN MADE on the Service housing front during the past year, but thousands of families face an indefinite future of substandard quarters. The Strategic Air Command reports that more than 9000 Capehart units were completed and occupied during 1959, but adds that SAC still needs 53,405 more units to provide adequate quarters for married personnel.

THE ADMINISTRATION'S FISCAL '61 BUDGET will provide only limited funds for new housing. Critical question is whether authorization will be sought for lower-rank married enlisted men to occupy Government quarters. This is an increasing problem in all the Services.

THE OLDEST ACTIVE STATE ADJUTANT GENERAL, Maj. Gen. Milton A. Reckord, 80, of Maryland, was honored at a birthday reception 29 December at Ft. Meade, Md., by the 2d Region, Army Air Defense Command, headed by Maj. Gen. Robert H. Booth. General Reckord's military career began with enlistment in the Maryland National Guard 15 February 1901.

MISSILE MEMOS—The Army Ordnance Guided Missile School at Redstone Arsenal, Ala., under Col. Charles W. Eifler, has graduated more than 2000 USAF students and has trained almost 600 officers and men from seven NATO air forces during the past two years. . . . Project Backside is the name that has been given to construction of Ballistic Missile Early Warning System (BMEWS) sites at Clear, Alaska. . . .

WHEN MOST PEOPLE SAY "I THINK..."

DO THEY REALLY THINK?

A THOUGHTFUL DISCUSSION
by Dr. D. Alan Walter

"We all have occasion to express our opinions a dozen times a day—at work, over the lunch table, at community or church meetings, in social gatherings. And our progress in our jobs . . . our standing in any group depends in large part on how sound our opinions are.

"A person who says 'I think' about any subject—whether politics, psychology, the latest scientific developments, communism, religion or the news of the day—and then expresses attitudes which are clearly not informed thoughts, but a jumble of emotional misinformation, is rarely listened to with respect.

"To think intelligently about any subject one must have knowledge. Not just current facts picked up in newspapers and magazines, but a background of knowledge against which facts can be evaluated and sound opinions formed.

"No one mind can hold all the information necessary to arrive at a thoughtful opinion on all subjects, but one reference set does—the esteemed Encyclopaedia Britannica, for almost 200 years the world's most respected, comprehensive, and authoritative treasure of knowledge. For anyone who recognizes the importance of expressing opinions which plainly show that when you say 'I think' you are expressing real thought—not uninformed prejudice nor unthinking conformity—the Encyclopaedia Britannica is an essential possession. It is the objective source of the knowledge a mind must have in order to think with lucidity and discernment."

now available direct from the publisher

**Special Discount
to Military Personnel!**

you get all 24 volumes now—pay later!

The latest edition of Britannica—the greatest treasure of knowledge ever published—is now being offered at a *special discount* to Military Personnel on Active Duty only. All 24 handsome volumes of this world-renowned reference library will be delivered to your home NOW direct from the publisher. You pay later at a cost so low it is as easy as buying a book a month!

Equivalent to a library of 1,000 books!

The Encyclopaedia Britannica is the most valuable gift you can give yourself and your family—the priceless gift of knowledge. Information on every subject significant to mankind is contained in its new edition. It is equivalent to a library of 1,000 books, bringing you the knowledge and authority of world-recognized leaders in every field.

Just think of a subject, and you'll find it in the Encyclopaedia Britannica—whether it is a special subject applicable to your military career, such as Military Psychology, Nuclear Development, Veterans organizations—or subjects of general interest, such as information on the rules of a sport, the background of a religion, how to build a brick arch in a fireplace, the history of medicine.

The new Britannica almost "televises" information to you, with 25,042 magnificent photo-

graphs, maps, and drawings. In every respect, Britannica is the largest and most complete reference set published in America, containing 27,357 pages and over 38,000,000 words.

Symbol of a good home

Encyclopaedia Britannica cannot help but have a lasting effect on you as well as on the growth and development of your children in school and in later life. Benjamin Franklin said: "An investment in knowledge pays the best interest," and Britannica gives you the accumulated knowledge of the world in clear, easy-to-read language

and superb illustrations. It is essential in every home where education is valued and respected.

Preview Booklet Offered FREE

Simply fill in and mail the coupon today, and we will send you . . . without cost or obligation . . . a copy of our beautiful, new booklet which contains an exciting preview of the latest edition of Encyclopaedia Britannica. Send no money—not even for postage. It's yours, absolutely free! However, since this offer is necessarily limited, please mail the coupon today before it slips your mind.

General Taylor's Hard-Hitting Book Could Prompt A Summons To Capitol

(The Uncertain Trumpet by General Maxwell D. Taylor, USA-Ret., published by Harper & Brothers, New York City, 203 pages, \$4.00)

THE new session of Congress may summon General Maxwell D. Taylor, USA-Ret., former Army CofS, to give new testimony on his views regarding the lack of what he calls a "long term National Military Program of Flexible Response." Whatever the stickiness of such an expression, General Taylor in his newly published volume, "The Uncertain Trumpet," fires directly at his target in declaring: "In a field where costs are staggering, it is essential that our new Military Program put first things first and know why the priority is right."

General Taylor, who had tipped off his forcefully enunciated position in farewell testimony on Capitol Hill last year, charges that "there are no approved joint plans on the books of the Joint Chiefs of Staff for the assembling, training, and rapid outloading of Army, Navy, Marine, and Air Force units." He says the Nation should have a joint headquarters "similar to the Strategic Air Force, to be charged with the joint planning, training and transport of all forces of all Services earmarked for possible use in limited war."

In General Taylor's view, the present JCS organization is ineffective. He proposes that there be a separation of the JCS responsibilities "which can be dealt with by committee methods from those which require one-man responsibility in order to get acceptable results."

General Taylor, who did not submit the book for Defense Department security review—possibly because of the Pentagon's refusal to approve a volume by General Thomas S. Power, Cinc of the Strategic Air Command on "policy" grounds—says the JCS should be dissolved and replaced "by a single Defense Chief of Staff for the one-man functions and by a new advisory

board called provisionally the Supreme Military Council."

Under his plan, the Service Chiefs "would lose their Joint Chief hats and would return to their Services to act exclusively as Chiefs of Staff to their respective department Secretaries."

General Taylor says the new Defense Chief of Staff "would preside over the present Joint Staff assisted by two deputy chiefs of staff of the military Services other than his own."

The former Army CofS reiterates his contention that there must be more emphasis on limited war requirements. He asserts that "massive retaliation as a guiding strategic concept has reached a dead end" and contends that "there is an urgent need for a reappraisal of our strategic needs."

General Taylor charges that "we are playing a losing game and should change it."

It remains to be seen whether the Armed Services Committees, in their forthcoming inquiries into the "Defense Posture" (see Page 3), will want to hear General Taylor's views first hand.

At the book's end, he calls for a "certain trumpet, giving to friend and foe alike a clear expression of our purpose and our motives." He adds: "Actions to correct an imbalance of power and to replace the concept of Massive Retaliation by one of Flexible Response are measures conducive not to war but to world peace."

There is no question, whether or not General Taylor is called to testify at the Capitol, that his successor, General Lyman L. Lemnitzer, faces questioning by members of Congress concerning his views on what General Taylor says is wrong with our defense organization and planning and what needs to be done to correct this situation.

General Taylor's provocative book certainly will figure in election-year political battleground action, though that, of course, was not its purpose.

"Your STAR to a Successful Future"

What could be better than having a LAW ENFORCEMENT JOB waiting for you in your HOME STATE or the state of your choice when your enlistment period is over. Hundreds of men throughout the nation each year will be appointed to positions as Municipal Police Officers, State Highway Patrol Officers, Radio Car Officers, Federal Agents, Narcotics Agents, Private Investigators, Border Patrol Officers, Liquor Control Officers, County and State Officers, plus many many more. Write TODAY for your QUALIFICATION QUESTIONNAIRE — LAW ENFORCEMENT TRAINING INSTITUTE 404 Long Beach Blvd., Long Beach 12, California.

RETIRED NOTES:

RAdm. Peterson V.P.; Col. Roosma Named

RAdm. Mell A. Peterson USN-Ret., who had been Commander of the Naval Ordnance Laboratory, White Oak, Silver Spring Md., has been elected Executive Vice President and a Director of Bulova Research & Development Laboratories, Inc., of Woodside, Long Island, N. Y., it is announced by General of the Army Omar N. Bradley, Board Chairman of the Laboratories and parent Bulova Watch Company, Inc. 31 October.

Col. John S. Roosma, USA-Ret., is the new Commandant of Cadets at the Bordentown, N. J. Military Institute. Dr. Harold Morrison Smith, President and Headmaster, said Colonel Roosma, USMA '26 succeeds Col. Herbert T. Benz, who will remain as an instructor of history. The new Commandant served as First Army Provost Marshal from 1946 to 1950 and as Deputy Post Commander of Ft. Jay, N. Y., from 1953 to July 1955 when he became Special Assistant to the Commanding General and Deputy Commander of the First Army. He held the latter post until his retirement from active Army duty 30 June 1956 after more than 36 years' service.

Colonel Roosma is married to the former Marjorie Perline Henion of Passaic, N. J. They have three sons who attended the U. S. Military Academy: John, Jr., a captain with the Air Force, and twins: Garret and William, both lieutenants in the Army. Colonel and Mrs. Roosma make their home at 15 Westover Road, Verona, N. J.

Colonel Roosma is the immediate past president of the West Point Society of New York.

Col. Orville Z. Tyler, Jr., USA-Ret., Secretary-Treasurer of Tyler Publishing Co., Jacksonville, Fla., and associated with Graves Business Supplies, Perry, Fla., was awarded the Legion of Merit recently at Headquarters, Florida Sector Command, IV Army Corps (Reserve).

Col. C. H. Meek, USA-Ret., former Deputy Commander at Camp Wolters, Tex., is the new Manager of the Mineral Wells, Tex., Chamber of Commerce. Colonel Meek, his wife Jenny, and daughter, Sharon Ruth, will reside at 1515 NW Fifth Avenue, Mineral Wells.

Cdr. Allyn B. Ostroski, USN-Ret., has been named Director of Defense Planning, Ling-Altec Electronics, Anaheim, Calif. His last assignment was Air Materiel Officer, Avionics Officer Staff, Atlantic Fleet.

Lt. Col. Frederic W. Hodge, USA-Ret., former Deputy G-1 of First Army, Governor Island, N. Y., will make his home at 1442 Northwest 7th Road, Gainesville, Fla. He plans to attend the University of Florida to seek a master's degree in business administration.

Lt. Col. Nelson Krause, USA-Ret., formerly with the Fourth Army Quartermaster Section's Food Advisor Division at Ft. Sam Houston, Tex., will become food consultant for the Post Exchange Services at Ft. Sill, Okla. He and his wife, Gladys, will make their home at 1212 Carroll Drive in Lawton, Okla.

Lt. Col. Joseph J. Luthman, USA-Ret., formerly with the Operations and Intelligence Division, Engineer Section, Fourth Army, Ft. Sam Houston, Tex., will continue to reside at 2002 Flamingo Drive, San Antonio, with his wife, Sarah, and two children, John, 20, and Mary, 18.

Lt. Col. Oscar T. Hammerness, USA-Ret., former Stewart, Ga., Provost Marshall, and Mrs. Hammerness will reside in Philadelphia. They have one son, Jay, a Lieutenant in the Army Reserve.

Lt. Col. Harry Symmonds, 41, has retired at Westover AFB, Mass., after 22 years service.

He lives with his wife, Louise Sullivan, in Springfield, Mass., and is the father of three children, James, Mike, and Dennis.

SCHOOL AND CAMP DIRECTORY

The Schools and Camps listed below are effectively equipped to care for the educational and recreational needs of the children of members of the services and this Directory is recognized as an authentic and reliable aid to service parents in solving the problem of child education. Navy Will Triple Missile Fleet; Atomic Cruiser Will Be Commissioned

From page 6—

Terrier missile, with the exception of the *Galveston* which has as its main armament the Bendix surface-to-air Talos missile.

Both *Dewey* and *Gyatt* carry the Terrier.

Highlighting the 1960 shipbuilding program will be the commissioning of the cruiser *Long Beach* (CGN-9)—the first atomic-powered, guided missile surface ship. She will be commanded by Capt. Eugene P. Wilkinson, former skipper of the Navy's first atomic-powered submarine *Nautilus*.

The Navy is shooting for a commissioning date in September. *Long Beach* will be 721 feet long, have a 73-foot beam, with a standard displacement of 14,000 tons—comparable in size to some WWII heavy cruisers. The *Long Beach*, being built at Bethlehem Steel Company's Quincy, Mass., Shipyard, will cost about \$250 million.

Another feature of the 1960 program will be the commissioning of the first aircraft carrier with the built-in capability of firing the Terrier. She is the *Kitty Hawk* (CVA-63).

1960 will see the addition of four more Polaris SSBN's. Two of the fleet ballistic missile subs—the *Patrick Henry* (SSBN-599) and the *Theodore Roosevelt* (SSBN-600)—are sister ships to the lead ship in the class; *George Washington* (SSBN-598). The other two will comprise a separate class made up of the 5600-ton ships, *Robert E. Lee* (SSBN-601) and *Abraham Lincoln* (SSBN-602).

The remainder of ships to be commissioned in 1960 include four light cruisers, seven frigates and four destroyers.

Two of the cruisers—*Springfield* (CLG-7) and *Topeka* (CLG-8)—will be armed with the Terrier, while the other two—*Little Rock* (CLG-4) and *Oklahoma City* (CLG-5)—will fire the Talos.

The seven frigates all will have Terrier as their main armament. They are: *Farragut* (DLG-6), *Luce* (DLG-7), *MacDonough* (DLG-8), *Coontz* (DLG-9), *King* (DLG-10), *Mahan* (DLG-11), and *Preble* (DLG-15).

All four guided-missile destroyers will

carry the Convair Tartar. They are: *Charles F. Adams* (DDG-2), *John King* (DDG-3), *Lawrence* (DDG-4), and *Henry B. Wilson* (DDG-7).

The world's first nuclear-powered aircraft carrier will be commissioned in 1961. She is the *Enterprise* (CVAN-65). This goliath-of-the-sea will have a standard displacement of 74,700 tons, 20,000 tons greater than the first super-carrier *Forrestal* (CVA-59). *Enterprise*, which will carry Terrier batteries, will be powered by eight Westinghouse-built reactors.

Another bright spot in the Navy's 1961 shipbuilding program will be the commissioning of the first atomic-powered frigate *Bainbridge* (DLGN-25), which will carry Terrier batteries fore and aft.

Also to be commissioned in 1961 is the conventional super-carrier *Constellation* (CVA-64) and lead ship in the 6900-ton class of Polaris submarines—*Ethan Allen* (SSBN-608). 1961 also will see the commissioning of the heavy cruiser *Albany* (CG-10), which will have Talos and Tartar launchers and ASROC capability. Developed by Minneapolis-Honeywell Regulator Co., ASROC is a surface-to-underwater missile.

Two frigates, armed with Terrier batteries, the *Dahlgren* (DLG-12) and the *William V. Pratt* (DLG-13) will join the Fleet in 1961 along with nine Tartar-armed guided-missile destroyers—*Biddle* (DDG-5), *Barney* (DDG-6), *Lynde McCormick* (DDG-8), *Towers* (DDG-9), *Sampson* (DDG-10), *Sellers* (DDG-11), *Robison* (DDG-12), *Hoel* (DDG-13), and *Buchanan* (DDG-14).

In 1962 the Navy will commission six more guided missile ships—two heavy cruisers and four frigates. The cruisers, which have the same armament as the *Albany*, are the *Chicago* (CG-11) and *Columbus* (CG-12).

The four frigates, as yet unnamed, slated for 1962 commissioning dates, are DLG's 16, 17, 19 and 23.

An additional five guided-missile frigates have been scheduled for commissioning in 1963—DLG's 18, 20, 21, 22 and 24.

In addition, contracts have been let for construction of five guided destroyers, DDG's 15 through 19, from funds appro-

riated in the FY '59 budget. The FY '59 budget also contained funds for the second, third and fourth Polaris submarines of the 6900-ton *Ethan Allen* class.

They are the *Sam Houston* (SSBN-609), *Thomas A. Edison* (SSBN-610) and *John Marshall* (SSBN-611).

A Navy spokesman said there is a possibility that the last three authorized Polaris subs may be completed in 1962. If the Navy's high-priority FBM program is accelerated to this degree, the number of missile ships in commission at the start of 1963 would rise from 49 to 52.

The Fiscal Year 1960 budget authorizes the Navy to build three frigates and three destroyers and to convert a cruiser to missile-carrying capability. As yet, the Navy has not assigned hull numbers or names to the six new construction missile ships or named the cruiser to be converted.

In addition to the cruiser, three frigates and three destroyers authorized in the FY '60 budget, the Navy was provided \$54 million for long lead items for the 10th, 11th and 12th SSBN's—\$18 million per submarine.

For GPM this has been a wonderful quarter-century. We have seen great growth in service, in business and in coverage. We like to feel that our policy of growing through sound and conservative insurance practices and management and never-ending search for better ways to serve will reflect in an even greater growth in the years to come.

But, the most important factor in our company is the representative who serves you. "He's a GPM man" means to us and you, a man who is qualified by experience and training to serve you better. A GPM man is a specialist in military insurance problems. He has the personal background and the individual training to advise how best you can get the protection and savings plan that fits your personal need—call him—you'll be glad you did!

People Of Service At Signal Supply Agency

MRS. Elmer L. Littell, wife of Brigadier General Littell, CG of the Army Signal Supply Agency, Philadelphia, adjusts chevrons and bars on the sleeves of agency Gray Ladies. Left to right: Mrs. Harry Pikus, 1 chevron, 2 bars (6 years); Mrs. Edwin Petzing, 1 chevron, 1 bar (5 years); Mrs. John C. Woodburn, 2 bars (2 years), and Mrs. John S. Doyle, 2 bars (2 years). Not present for photo was Mrs. Douglas O. Toft, who received 1 chevron and 2 bars for 6 years' service. Mrs. Littell has given over two years of service to the agency's bloodmobile.

Edwards OWC Nets \$1,000 For Welfare

A holiday Guest Tea and Bazaar held by the Officers Wives Club at Edwards Air Force Base Calif., brought in over \$1,000 to swell the treasury for next year's social and welfare activities.

Greeting members and guests were Mrs. John W. Carpenter, III, honorary President and wife of the Commander Air Force Flight Test Center; Mrs. Paul C. Ashworth, wife of the Deputy Commander; Mrs. Frank Mears, wife of the Base Commander; and Mrs. Vincent Crofut, OWC President.

Many articles for sale at the Bazaar were hand made by OWC members.

Mrs. Allen Thompson won a lovely doll with a 24 piece hand made wardrobe. In addition, boxes from Hollywood stars with surprise packages inside were

REPORT FROM RUSSIA

General John E. Dahlquist, USA-Ret., will speak on his recent trip to Russia at a luncheon meeting of the Officers' Wives Club of the Military District of Washington on 13 January at Patton Hall, Fort Myer, Va.

The meeting and General Dahlquist's remarks will be preceded by a social hour starting at 12 o'clock. Mrs. Mark F. Brennan is Club President. Hostesses will be Mesdames R. K. Johnson, P. O. Hoffman, T. H. Magness, and R. L. Roper.

auctioned off.

Mrs. Robert Howe was chairman of the Bazaar, with Mrs. Charles A. Brown as her co-chairman. Wives of the Test Pilot School members served as hostesses.

Daughter Wins Maid Of Cotton Crown

SANDRA LEE JENNINGS, 19-year-old daughter of Maj. and Mrs. Alpheus M. Jennings, is the Maid of Cotton for 1960.

Major Jennings is an SAC officer with the Fifteenth Air Force at March AFB, Calif.

Winning beauty titles is nothing new for lovely Sandra. She was Miss California and finished as third runner-up in the Miss America beauty pageant in Atlantic City in 1958. The new Maid of Cotton will begin an international goodwill tour late in January. Sandra will make a three-day visit to Omaha, Nebr., SAC Headquarters, 27-30 March.

Happy New Year At Ft. McPherson

MORE than 500 prominent military and civilian guests joined with their hosts, Lt. Gen. and Mrs. Clark L. Ruffner to exchange New Year's greetings at Ft. McPherson, Ga. As hosts for the annual Third Army Reception, the Ruffners welcomed members of the Reserve Forces, National Guard, the Air Force, the Navy, as well as members of the Third Army Headquarters. Prominent leaders of Atlanta (Ga.) civic and social circles were also present for the festive occasion. Shown above, left to right, are Mrs. Ruffner; General Ruffner, Third Army Commander; Col. Franklin S. Chalmers, (Ret.), Atlanta representative of the Federal Civil Service Commission; Maj. Gen. Carl T. Sutherland, CG of the 81st Infantry Division (Res.); and Mrs. Carl T. Sutherland.

Service Folk

Capt. (MC, USN-Ret) and Mrs. Norman Lee Barr of 4825 Quebec St., N.W., Washington, D. C., introduced their daughter, Miss Mary Fairchild Barr, at a dinner dance 23 December at the Washington Club.

A graduate of the National Cathedral School for Girls, Washington, Miss Barr studied at L'Ecole Internationale and the University of Geneva in Switzerland, and is now a student at Briarcliff College. Her father is Director of Space Environments and Life Sciences at the Research and Development Center for Republic Aviation Corporation.

Photo by Glorau
Miss Barr

Miss Carol Duncan ("Carli") Power was chosen Ft. Bliss, Tex., Duchess to the El Paso Sun Carnival. She is the daughter of Brig. Gen. George W. Power, Army Air Defense Center CG, and Mrs. Power.

Mrs. Alice Joyce Stachel, wife of helicopter student First Lt. Robert D. Stachel, has become the first woman member of the Camp Wolters, Tex., Flying Club to make a solo flight. Mrs. Stachel soloed after 10 hours instructions. Her father is an Army paratrooper. She was a MATS stewardess with the Air Force for two years. Her parents, Sfc and Mrs. Jesse W. Haley, are stationed in Karlsruhe, Germany.

Service Weddings and Engagements

M. and Mrs. Laurence Victor Efner of Arlington, Va., announce the marriage of their daughter, Shirley Ann, to Maj. Desmond Dene Balmer, jr., USA, son of Brig. General (USA-Ret.) and Mrs. Balmer of Honolulu, Hawaii. The double ring ceremony took place 19 December at the Ft. Myer Chapel, with the Reverend George M. Docherty of the New York Avenue Presbyterian Church, Washington, D. C., officiating.

Attended by Mrs. Robert Miller of Pittsburgh as matron of honor, the bride had Mrs. Elwood Kroupa and Miss Marjory Helter as bridesmaids. Capt. Joseph Kiernan of Arlington, Va., served as best man and ushers included Capt. Alvin Aaronson, USAF, Lts. John Spellman, Robert L. Swart, USN White House aides, and Maj. Robert A. Ward, USA.

The bride attended Sullins Junior College in Virginia, and Brigham Young University in Utah. Major Balmer, a graduate of the USMA, obtained a M. A. degree from Georgetown University. He is stationed in Korea.

The couple are now honeymooning in Hawaii.

STRACKBEIN-QUIGGLE—Mrs. Lynne Cline Quiggle, widow of Rear Admiral Quiggle, and Mr. O. R. Strackbein were married in a morning ceremony at the Blessed Sacrament Church, Chevy Chase, Md., 31 December.

The bride, a native of Southern Maryland, has resided in the District of Columbia. Mr. Strackbein, who was born in Texas, is Chairman of the nation-wide Committee on Import-Export Policy.

Following a Florida honeymoon, the couple will reside in Arlington, Va.

John Frederick Kelly, infant son of Lt. Col. and Mrs. E. W. Kelly, was christened recently by Catholic Chaplain M. Homco at Brookley AFB, Ala. Namesake of John Frederick is Col. Frederick Foerster, MOAMA Executive Officer. Mrs. John A. Pechuls, wife of Brigadier General Pechuls, stationed in Germany was Godmother. Serving as proxy was Mrs. Foerster. Godfather was Capt. R. I. Brown. The christening dress was sent from France by Mrs. Pechuls.

WORKING GUEST

Carolyn Hagner Shaw will be a working guest at a luncheon meeting of the Coast Guard Officers' Wives Club on Tuesday, 12 January at Columbia Country Club, Washington, D. C. Mrs. Shaw, author and columnist, and editor of "The Social List of Washington, D. C." will discuss questions of etiquette for all occasions.

The club has also invited, as special guests, Mrs. Kenneth R. Nelson, President of the Public Health Officers' Wives Club, Mrs. Leroy E. Burney, wife of the Surgeon General of the Public Health Service and Benefit Committee Chairman, Mrs. L. J. Gehrig and Mrs. S. J. Reisman.

Mrs. James A. Hirschfield, Honorary Vice President of the Coast Guard Wives will be in charge of table decorations.

Phillip G. Robberson, son of Maj. (USA-Ret) and Mrs. Roy L. Robberson of 4610 Trailwood Dr., San Antonio, Tex., has been selected Cadet Chaplain in the Corps of Cadets at Texas A&M College, where he is a senior student majoring in Education. Upon graduation, he plans to enter Perkins Theological Seminary, Dallas.

ONATE-SANDIN—Miss Elba M. Sandin, daughter of Col. and Mrs. Ramon A. Sandin of Ft. Huachuca, Ariz., became the bride of 1st Lt. Joseph J. Onate, USAF, son of Professor and Mrs. Jose Onate of Newton Center, Mass., 26 December at St. Andrew's Church, Sierra Vista, Ariz.

Lieutenant Onate, a jet pilot assigned to Davis-Monthan AFB, and his bride will make their home at Tucson.

SPEIDEL-EVANS — Mrs. Rose Christopher Evans of Baltimore, Md., has announced the engagement of her daughter, Mary Lee, to 1st Lt. George S. Speidel, 3d, USA, son of Brig. Gen. General and Mrs. Speidel, jr., now stationed at Stuttgart, Germany.

Miss Evans, daughter of the late Mr. Hance Lawson Evans, was graduated from Western High School, Baltimore. Her fiancé, a graduate of Rensselaer Polytechnic Institute, is currently serving at Aberdeen Proving Ground, Md.

A Summer wedding is planned.

ORRISON-OLSON — Col. (USA-Ret) and Mrs. Hardin L. Olson, sr., of "Ichiban," Woodside Estates, McLean, Va., announce the engagement of their daughter, Karen Elaine, to Mr. Charles Russell Orrison, jr., son of Mr. and Mrs. Orrison, also of McLean.

Miss Olson is a student at the Medical College of Virginia, Richmond. Her fiancé, VMI '58, is employed by the Potomac Electric Power Co., Washington, D. C.

TRITZ-BIGELOW—Brig. Gen. (USA) and Mrs. Horace Freeman Bigelow of Arlington, Va., announce the marriage of their daughter, Judith, to Lt. James William Tritz, USA, son of Mr. and Mrs. W. C. Tritz of Humboldt, S. Dak., on 28 December at the Post Chapel, Ft. Belvoir, Va.

Photo by Hessler
Mrs. Tritz

The bride was attended by her sister, Mrs. E. W. Kupec, as matron of honor, and Miss Adri Clark as maid of honor. Ens. Robert E. Larson was best man.

Mrs. Tritz attends the University of Pennsylvania, where she is a member of the Delta Delta Delta sorority. Her bridegroom, a graduate of the USMA and a member of the Corps of Engineers, will leave in January for his first duty station in Germany, where his bride will join him, following her June graduation.

O'CONNOR - ALBERGOTTI — Col. (USA-Ret) and Mrs. William M. Albergotti, 86 Rock Creek Dr., Greenville, S. C., announce the marriage of their daughter, Elisabeth McKewn, to Mr. James Dollard O'Connor, son of Mr. William Francis O'Connor of Troy, N. Y., and the late Mrs. O'Connor. The ceremony was performed at Zurich, Switzerland, 14 December.

Mrs. O'Connor attended Hollins College for two years and was graduated from the University of North Carolina. Her bridegroom holds an administrative position in the headquarters of the European Exchange System.

Following a wedding trip to Vienna, Austria, the couple are making their home at Nuremberg, Germany.

HEFLIN-TRAIL—Col. and Mrs. Harry E. Trail of Ft. Sill, Okla., announce the engagement of their daughter, Sharon Lee, to Capt. Henry Grady Heflin, Jr., USA, son of Mr. and Mrs. Heflin of Clanton, Ala.

Miss Trail

Miss Trail attended the School of Performing Arts, New York City, and Cameron College in Oklahoma. Captain Heflin, a Distinguished Military Graduate of Auburn University and a member of the Kappa Sigma fraternity, is an instructor in the Department of Tactics and Combined Arms at the Artillery School, Ft. Sill.

A June wedding is planned.

LADLEY-SKELLS—Col. (USA) and Mrs. James F. Skells, Schofield Barracks, Hawaii, announce the marriage of their daughter, Pamela Tilton, to Lt. Arthur Edward Ladley, Jr., USCG, son of Mr. and Mrs. Ladley of San Diego, Calif., 26 December at the Post Chapel, Schofield Barracks.

Photo by Nakamura
Mrs. Ladley

Miss Penny Skells served as her sister's honor attendant and Misses Jane Kelly and Robin Claire Leong were bridesmaids. Lt. Robert Larson was best man for the bridegroom and ushers included Lts. Walter E. Mason, David P. Bosomworth, James W. Brawley and Ens. Jerry R. Russom.

Mrs. Ladley is a senior student at Hood College at Frederick, Md., and her bridegroom will transfer in February from the USCG Air Detachment at Barber's Point, Oahu, to Wright-Patterson AFB, Ohio, where they will make their home, following the bride's June graduation.

WALLEY-BANDY—Mr. and Mrs. John H. Bandy announce the engagement of their daughter, Barbara Ann, to Ens. Oliver Bruce Walley, USN, son of Mr. and Mrs. H. Dewey Walley of Sandwich, Ill.

Miss Bandy was a member of the 1959 graduating class from Northern Illinois University, DeKalb, Ill.

Ensign Walley graduated in 1958 from Northern Illinois University, and completed Officers' Candidate School, Newport, Rhode Island, in March 1959. No date has been set for the wedding.

HOUSEMAN-LORD — Col. and Mrs. Noah L. Lord of Ft. Totten, N. Y., have announced the engagement of their daughter, Ann, to Mr. Evan K. Houseman of Wilmington, Del., son of Maj. Gen. and Mrs. Evan M. Houseman of Ft. McNair, D. C.

Miss Lord

Miss Lord, a graduate of Barnard College, where she is now employed in the Registrar's Office, is working on a Master's degree in History at Columbia University. Her fiancé, Yale '56, is a chemical engineer with the E. I. de Nemours du Pont Co. He is also working toward a Master's degree in Business Administration at Drexel Institute of Technology.

A June wedding is planned.

WILLARD-JOHNSON — Col. (USAF) and Mrs. Lloyd Earl Johnson, Jr., 7837 Jay Miller Dr., Falls Church, Va., announce the engagement of their daughter, Patricia Hepburn, to Mr. William Bradley Willard, Jr., son of Mr. and Mrs. Willard of Washington, D. C.

Miss Johnson attends Southern Seminary & Junior College. Cadet Willard is a senior student at VMI.

COSTENINK-MEIER — Lt. Col. and Mrs. Arthur C. Meier of 217 Augur Ave., Ft. Leavenworth, Kans., announce the engagement of their daughter, Gretchen Elisabeth, to Mr. William Gerard Costenink, son of Mr. and Mrs. Gerrit Costenink of Hull, Iowa.

Miss Meier

Miss Meier is a senior student at the State University of Iowa, where she is a member of the Gamma Phi Beta sorority, and is majoring in Speech Therapy. Her fiancé received a B. A. degree in Chemistry and Biology from Calvin College in Michigan and is now a candidate for a Ph. D. degree at the State University of Iowa.

A June wedding is planned at the Post Chapel, Ft. Leavenworth.

BENGSTON-THEOBALD — Capt. (USN) and Mrs. Robert A. Theobald, Jr., of New York City and Scarsdale, N. Y., have announced the engagement of their daughter, Mary-Louise, to Midshipman Robert Glenn Bengston, USNA '60, son of Capt. (USN) and Mrs. Robert C. Bengston of Colorado Springs.

Miss Theobald, whose father is Deputy Naval Representative of the U. S. Delegation, Military Staff Committee of the U. N., is a graduate of St. Michael's School, Newport, R. I., and of the Holton-Arms School and Junior College, Washington, D. C. She is the granddaughter of Mr. and Mrs. Ferdinand S. Norman of Scarsdale, and of the late RAdm. Robert A. Theobald and the late Mrs. Helen B. Theobald. Her fiancé attended Heatherdown, Ascot, Berkshire, England, and was graduated from the Severn School, before entering the Naval Academy. His father is Deputy Chief of Staff for Intelligence, North American Defense Command.

FERSCH-SMELLOW — The Broadway Presbyterian Church, Rock Island, Ill., was the setting 27 December for the ceremony uniting in marriage Miss Marguerite Smellow and Lt. Stephen J. Fersch, son of Mrs. Alice L. Fersch of Davenport, Iowa. The bride is the daughter of Col. (USA) and Mrs. Samuel Smellow, Qtrs. 7, Rock Island Arsenal, Ill.

Photo by Frederick
Mrs. Fersch

Miss Kathryn Smellow was her sister's maid of honor and only attendant, and Mr. Ellsworth A. Fersch served as his brother's best man. Ushering were Cadet Samuel Smellow, Jr., brother of the bride, Messrs. G. H. Foust, John McCord and Robert S. Gamble.

Mrs. Fersch, who was graduated from the American High School, Salzburg, Austria, and attended Mary Washington College of the University of Virginia at Fredericksburg, has been employed by the U. S. Government in Washington, D. C. Her husband attended the University of Iowa and is a graduate of the Officers' Candidate School, Ft. Benning, Ga. He is currently stationed at Ft. Dix, N. J., where he and his bride will reside.

GRISWOLD-CHILDRESS — The Old Georgetown Road Methodist Church, Bethesda, Md., provided the setting 2 January for the ceremony uniting in marriage Miss Ronda Ruth Childress and Ens. Ronald Owen Griswold, USCGR. The bride is the daughter of Capt. (USCG) and Mrs. William Wilder Childress of 3512 Glenmoor Dr., Chevy Chase, Md., and parents of the bridegroom are Mr. and Mrs. George Griswold of Colton, Calif.

Miss Shannon Carlson, daughter of Capt. and Mrs. Edgar V. Carlson, Bethesda, served as the bride's only attendant, and Ens. Charles L. Hayes, USCGR, a

classmate of the bridegroom, was best man. Ushering were Capt. Harold Wood and Cdr. Benjamin Shoemaker.

Mrs. Griswold attended Colorado Woman's College and San Jose State University in California, where she was affiliated with the Delta Zeta sorority. A graduate of San Jose State College, her husband recently was graduated from the USCG Officers' Candidate School, Yorktown, Va. His first assignment will be at Honolulu, Hawaii.

WILEY-SCOVILLE — Col. (USA) and Mrs. John Newman Scoville of 48 Ingalls Rd., Ft. Monroe, Va., announce the engagement of their daughter, Barbara Joan, to Cadet Noble James Wiley, 3d, USMA, son of Colonel (USA-Ret) and Mrs. Wiley, Jr., of Largo, Fla.

Miss Scoville

Miss Scoville, who is a graduate of the Taipei American School and of Stephens College, is presently employed by American Airlines in Washington, D. C. Cadet Wiley attended Sullivan's Preparatory School, Washington, and is a member of the Class of '60 at the Academy.

A Summer wedding is planned.

FAVOUR-MURCHISON — Miss Donna Ann Murchison, daughter of Col. and Mrs. James Murchison of Ft. MacArthur, Calif., was married to Mr. James Russell Favour, son of Mr. and Mrs. Lawrence C. Favour, Beloit, Wisc., 20 December at the Fitzsimons Army Hospital Chapel, Denver, Colo.

Attending the bride were Misses Mary I. Murchison and Diana G. Benedict, and best man and ushers were Mr. Thomas

Ever Since Gettysburg:

Journal Readers Can Count On Texts!

In 1863, most newspapers then in existence in the United States dismissed the Gettysburg Address of President Lincoln with scant mention. *The Journal*, calling it "one of the most felicitous utterances of the author," published the now famous speech in full text.

Through the decades, *The Journal* has adhered to the policy of publishing full texts of important statements that are related to National Defense.

Our readers want the official word, and in *The Journal* they get it quickly.

Today, just as in 1863, *The Journal* is the Nation's only weekly military publication covering the total Defense Establishment.

And, despite the massive inflation that has taken place during the past 97 years, *The Journal* today costs only \$1.00 a year more than at the time of the Gettysburg Address.

Editorial Survey Of CINCPAC

From page 11—

sion. Vietnam and Thailand are struggling to build up forces to meet their bare needs.

Of course, except in the case of SEATO nations, these ground forces of friendly nations are not parts of a flexible whole, such as in NATO. Few could be taken out of their own country in case of attack on another.

Thus, over-all one cannot escape the conclusion that the U. S. forces in the Far East are in need of augmentation, particularly Air Force and Army, and a great deal of modernization in all components.

Another weakness is in the logistics system. Because of the great distances which supplies must be moved, there must be considerable reserves maintained at depots and warehouses throughout the area. Under present conditions of personnel shortages we do not have the personnel to man these with U. S. people. The result is that many hundreds of local people are employed in our supply pipe lines. While some local employment would always be necessary and desirable, many of our leaders feel that the proportion now is far too great.

What of the Future?

Will the peril subside? Will Red China collapse or will her bellicose attitude cool?

For the short range future, the answer appears definitely "No." China's population is growing rapidly and her capacity to feed and care for it is not. The pressure on the Red regime to conquer and embrace additional areas with more food and more resources will grow rather than diminish.

General Chiang Kai-shek (see THE JOURNAL 19 December) firmly believes that there will be a revolution on the mainland and that his powerful forces will be welcomed. But skilled observers in the Far East do not share his views. The Communist leaders have the army and they have the power and determination to put down any local uprisings. There appears little foundation for the hope of an overthrow of the Red regime in the near future. This is, of course, on a short range estimate; no one can give, with any assurance, a long range estimate of what could happen in that vast continent with its millions of people.

Those who see recognition of Red China as a way to ease the situation neglect to point out that it is not us alone who have the say there. Red China would not agree to the setting up of diplomatic relations with the United States on our conditions. For one thing, she would insist on a free hand in Taiwan. Most certainly we could not, and would not, abandon our allies on Taiwan to the mercy of Communist conquerors.

Our aid to and defense of the Republic of China government has given heart to all wavering nations in the Far East. If we should abandon Taiwan, we would lose virtually all of our friends in Asia.

NATO has done and is doing a great job in defending our friends in Europe from Russia and in keeping the Communists from engulfing their industrial and natural resources.

But we must not forget that the Far East Theater is important too. Just as the loss of Europe to the Soviets would push our defenses back to New York and the East Coast, so the loss of the Far East to Red China would bring our defenses back to San Francisco and the West Coast. We can afford to permit neither.

M/G Carter of NORAD Heads For Korea Duty

Maj. Gen. Marshall S. Carter, CofS of the North American Air Defense Command at Ent AFB, Colo., for the past three years, has left for Korea and duty as Eighth Army CofS.

General Carter, USMA '31, was born at Ft. Monroe, Va., where his father was serving in 1909 as a Coast Artillery captain.

NORAD's new CofS under General Laurence S. Kuter, USAF, is Maj. Gen. W. H. Hennig, USMA '28, who has been CG of the Army Air Defense Command's 2d Region at Ft. Meade, Md.

Gen. Wedemeyer Reports Academy Life Changes

General A. C. Wedemeyer, USA-Ret., Chairman of the Board, reports that the Academy Life Insurance Company has passed the mark of \$5 million insurance in force.

He reported that Robert F. Delaney of Boettcher and Company had been elected to the Board of Directors. Mr. Delaney joined the board composed of W. Lee Baldwin, formerly President of Security Life and Accident Company in Denver and presently an insurance consultant, LCdr. A. R. Ormond, USNR, Executive Vice President of the Company, Morris M. Townsend, financier, and General Wedemeyer.

General Wedemeyer also reported that the Chief Executive Officer of the company would be Mr. Baldwin, who was named Chairman of an Executive Committee, with Mr. Delaney and Commander Ormond as members.

The board of directors also appointed an Investment Committee composed of Mr. Townsend as Chairman, and Mr. Delaney and Robert A. Lincoln, Secretary of the company, as members.

General Wedemeyer said the company was in a strong financial position with capital and surplus in excess of \$1.2 million.

Reserve Major Named USAF Athletic Assistant

Maj. Robert C. James, USAFR, Associate Dean of Men at the University of Maryland, will become Assistant Director of Intercollegiate Athletics at the U. S. Air Force Academy in February.

He is a 1947 graduate of the University of Maryland where he won letters in football, basketball, track and lacrosse.

Births • Marriages • Deaths

Army Shifts Three General Officers

Maj. Gen. Victor J. MacLaughlin, Assistant Army Quartermaster General for Operations, has been named Executive Director of the Military General Supply Agency, Richmond Quartermaster Depot, Va.

Maj. Gen. Albert F. Cassevant, CG at Ft. Monmouth, N. J., will retire 31 January and will be succeeded in the two-star post by Brig. Gen. William D. Hamlin, Signal Officer, U. S. Army Europe.

Brig. Gen. Graydon C. Essman, CG, Chemical Corps Research and Development Command, Washington, D. C., has been assigned to command the U. S. Army Chemical Center and Chemical Corps Materiel Command, Edgewood, Md., effective 12 January.

New Budget Will Seek AF Med School Funds

The Air Force has revamped its Fiscal Year 1961 budget request to include \$8.8 million for construction of facilities at the new School of Aviation Medicine, Brooks AFB, Tex.

This is \$3.2 million less than requested by school officials.

Eliminated from the planned Fiscal '61 construction at the school were a dental and physiology laboratories.

As originally submitted to the Defense Department, the Air Force's FY '61 construction request contained no funds for expansion of the Brooks facility.

The funding request was approved at the last minute following strong support for the school's expansion from Air Force Surgeon General Maj. Gen. O. K. Niess, and Senate Majority Leader Lyndon B. Johnson (D-Tex.).

Major Lookadoo To Pentagon

Maj. Bill Lookadoo has been assigned to the Office of the Air Force Secretary, as Chief, Information Pictorial Branch at the Pentagon.

The Major whom Milton Caniff introduced as a comic strip character in "Steve Canyon" as "Luke-A-Dew," worked as USAF liaison officer with the National Press Photographers for many years.

MATS Pilot Appointed To Singer Mfg. Unit

Establishment of a sales office in Washington, D. C., by Diehl Manufacturing Co., a subsidiary of The Singer Manufacturing Co., has been announced by W. O. Langille, President.

Diehl will share the Washington facility with Singer Military Products Division, of which Diehl is a unit. Diehl designs and manufactures servo components and control equipment.

Robert J. Ronger has been named to head Diehl's new office. He joined the firm after three years as a MATS pilot. Prior to his military tour, he had been affiliated with The Singer Manufacturing Co.

The new facility is located at 1707 H Street, N.W.

Navy Seeks EDO, AEDO And SDO Applicants

The Navy is seeking applications from Regular Line officers who desire to have their designators changed to Engineering Duty, Aeronautical Engineering Duty or Special Duty.

The Navy said it invites applications for augmentation from active and inactive duty Reservists for the same categories.

Requests for Special Duty are restricted to communications, intelligence and public information.

Applications must reach the Bureau of Personnel (Attn: Pers B136) before 28 February.

Details concerning eligibility requirements—waivers will not be granted—are contained in BuPers Notice 1120.

Col. Zierdt Will Head New Zeus Effort; Promotion To Brigadier Seen Certain

Col. John G. Zierdt, the son of Col. W. Henry Zierdt, USA-Ret., of Grantsville, Pa., will move up from CofS of the Army Ordnance Missile Command at Huntsville, Ala., next week to become Deputy Commander of the Army Rocket and Guided Missile Agency there.

Colonel Zierdt will be in charge of the Nike Zeus anti-missile missile program, officially described as "the Army's most urgent missile project."

In view of the priority status of the Zeus program and Colonel Zierdt's outstanding record, promotion to general officer rank can be forecast as a result of his new assignment.

Col. Thomas W. Cooke will succeed Colonel Zierdt as Missile Command CofS after service as Senior Ordnance Advisor to the Korean Military Assistance Group.

Colonel Cooke, USMA '36, holds a master's degree in industrial management from the University of Pennsylvania.

On 31 January, Maj. John B. Medaris, CG of the Ordnance Missile Command, will retire and will be succeeded by Maj. Gen. August Schomburg, who has been a Deputy Chief of Ordnance.

In announcing the assignment of Colo-

nel Zierdt, USMA '37, to head anti-missile and space defense systems in the Rocket and Guided Missile Agency, whose Commander is Brig. Gen. J. G. Shinkle, the Army said Zeus will come under a streamlined management program, successfully employed in development of the Jupiter IRBM.

The program was jointly developed by Lt. Gen. J. H. Hinrichs, Chief of Ordnance, and General Medaris.

The anti-missile or space defense systems, for which AOMC is responsible, will remain under the control of the Army Rocket and Guided Missile Agency.

Colonel Zierdt, who will in effect become "Mr. Zeus," will have cognizance over all phases of the Zeus program and will be responsible also for representing the missile command in all Zeus matters, the Army said.

Action offices will be established at the plants of major contractors, including the Bell Telephone Laboratories, Whippany, N. J., which is responsible for the technical development of the Zeus system.

The Western Electric Company is prime contractor. Douglas Aircraft Company fabricates and assembles the missiles, utilizing solid propellant motors supplied by the Thiokol Corporation and Grand Central Rocket Company.

Colonel Zierdt, who has attended M.I.T., in addition to West Point, is the brother of Lt. Col. William H. Zierdt, Jr., who is the Editor of *Armor* magazine, official publication of the U. S. Armor Association.

B/G Holbrook, President, Reports 23% Gain For Federal Services Finance Corp.

Brig. Gen. W. A. Holbrook, USA-Ret., President, reports that 1959 was marked by a 23% increase in net income of the Federal Services Finance Corporation.

This organization, founded in 1924 by retired officers of the Armed Forces, specializes in serving members of the Services.

General Holbrook said the 1959 gains have resulted in a record level of income.

General Holbrook said the 1959 increase "is a result of the increased awareness by military people of Federal Services' lending policies, and emphasizes the company's confidence in the military man." He said the 1959 record "highlights the belief that a company built upon military clientele would be a sound

enterprise, as well as a helpful service."

"Servicemen today are educated to financing," said General Holbrook. "For instance, they are especially wary of automobile financing which does not provide them with the privilege of taking their cars anywhere without the cost and trouble of refinancing, and so they have come to insist on genuine world-wide automobile financing. They are equally conscious of the benefits and advantages to be found in the personal loan field. Our company's growth would not have been possible without a careful analysis and thorough understanding of the servicemen's needs and demands for better service plus a broader protection in automobile and signature financing, all based upon our own experience as servicemen."

Army Gets Ordnance Missile School Help At Huntsville From 13 Manufacturers

Thirteen private firms are under contract with the Army Ordnance Guided Missile School at Huntsville, Ala., to supply instructors and operating and maintenance personnel, according to a report just released by Col. Charles W. Eifler, Commandant.

The 13 companies furnish the "Missile Academy" with 337 men, of whom 246 teach classes dealing with maintenance of Army and Air Force missile systems.

Their team with about 300 military instructors to train 5,000 students per year from the Army, Navy, Air Force and 12 Allied nations.

"The contractors supply instructors from their offices and factories as required by our curriculum. The arrangements provide the Missile School with men who work with missile systems and know them, and is also economical in that we can requisition their services as required," Colonel Eifler said.

Philco Corp. has the largest delegation here with 102 employees. Radio Corp. of America has 70, Association Aero Science Laboratories has 63, Teleprompter has 32 men engaged in producing, directing and maintaining the television and group communications equipment used by the Missile School to speed training and

transmit courses on missile maintenance by closed circuit television throughout the Missile School's own class rooms and to other training centers.

Chrysler maintains a staff of 28 to aid in training on the Jupiter which the firm produces in Detroit.

Other firms represented are: Atlantic Design Co.; The Martin Co.; Raytheon Manufacturing Co.; North American Aviation; Douglas Aircraft Co.; Western Electric Co.; Gilfillan Bros.; and Firestone Tire & Rubber Co.

Former AF Pilot To Douglas

A former Air Force pilot, Edward F. Spraltz, has been named Assistant Washington Representative for Space Programs for the Douglas Aircraft Company, it is announced by L. E. Tollefson, Company Washington Representative.

Mr. Spraltz has been a member of the Douglas Washington office for the past three years.

An aeronautical engineer with bachelor's and master's degrees from Catholic University in Washington, he was a WWII Air Force pilot and was recalled to active duty in 1951 for duty with MATS.

by his widow, Mrs. Phyllis Klegel, 5236 Clark Ave., Richards-Gebaur AFB; one daughter, Margaret Ann Klegel; one son, Albert C Klegel; and his mother, Mrs. Joseph H Klegel, Rockford, Ill. Burial Rockford.

MediCare Office Tells Service Families: Reach "Clear Understanding" With Doctor

(The following is the text of a statement made available to THE JOURNAL by the Office of Dependents Medical Care. It follows publication in last week's issue of a communication from an Air Force colonel which told how a Service family had become involved in a situation in which physicians refused to accept the MediCare fee as "payment in full.")

THE wording of the MediCare Act makes it clear that the serviceman should pay only certain stipulated amounts for authorized care and that the amount to be paid by the Government represents full payment for that care. In 1956, the Interservice Committee on Dependents' Medical Care of the Secretary of Defense and the Secretary of Health, Education, and Welfare considered it necessary that the MediCare Act be implemented by a "full service" Program, rather than an indemnity Program.

No Partial Pay

This means that the physician accepts the fee established under the Program as payment in full for authorized care furnished, rather than accepting it as partial payment and then billing the patient or sponsor for additional amounts. The "full service" principle was considered necessary in order to protect all servicemen and dependents from having to pay additional amounts. In every instance where the physician has accepted an eligible patient under the terms of the Program, the physician has accepted the amount authorized as payment in full.

There have been a few instances where physicians have not been willing to accept patients under the MediCare Program: Either, 1) they were not in agreement with fees authorized or, 2) they were not willing to accept the full payment concept which will not permit additional charges to be made to the patient over and above those paid by the Government. MediCare fees as negotiated with State Medical Societies are considered fair and reasonable.

"Special Report" Possible

A physician may submit a "Special Report" with a bill involving services of unusual degree and requiring excessive effort or responsibility, and justify a fee higher than the fee schedule amount. In

those instances, assistance of the respective State MediCare Committee maintained by State Medical Societies is obtained.

The patient and serviceman sponsor were not identified in the letter. However, a somewhat similar case has been considered in which a physician had been paid \$500 by an insurance company for services that would have warranted a lesser payment under MediCare. MediCare, of course, paid nothing in this instance in that the physician had already been paid for the services he rendered.

If a physician submits a bill under MediCare and agrees to take the MediCare fee as full payment, MediCare will pay. The physician is under no compulsion to accept a MediCare case or to bill under MediCare. He and the serviceman or patient are free to make other arrangements for payment, such as insurance. If a physician obtains payment from insurance, or is willing to wait for an insurance settlement, the Government does not and cannot force him to bill under MediCare.

Patient May File Claim

A serviceman who is forced to pay his own bill for authorized care does have protection. Under Joint Regulations of all the services, a serviceman or dependent who is forced to pay the physician directly, rather than having it paid under MediCare contractual channels, may file a direct claim, provided it is demonstrated that the direct payment was not made to obviate the full service principle. In those cases where the claim is proper for payment, reimbursement will not exceed the amount that could have been paid if the case had been accepted by the physician under the terms of the MediCare Program.

Reach Understanding

MediCare Officials urge all dependents and servicemen to reach a clear understanding with a physician at the outset as to whether the fee established under MediCare will be accepted by the physician as full payment for authorized care furnished. In this regard, DoD Fact Sheet 2-D, MediCare Program for Dependents, "Fact Sheet on Restoration of Certain Care," issued by the Department

Joint Chiefs Meet New Marine Commandant

MEMBERS of the Joint Chiefs of Staff congratulate General David M. Shoup upon his installation as the twenty-second Commandant of the Marine Corps. Left to right: Admiral Arleigh A. Burke, Chief of Naval Operations; General Nathan F. Twining, USAF, Chairman of the Joint Chiefs of Staff; General Shoup; General Thomas D. White, Chief of Staff of the Air Force; and General Lyman L. Lemnitzer, Chief of Staff of the Army.

of Defense, is quoted: "Eligible dependents seeking medical care from civilian sources should make sure the physician and hospital are participating in the MediCare Program before beginning treatment." If the physician receives payment from an insurance company, the Government, understandably, would not make a duplicate payment.

S.O. 1 Has Good News For 8 Lt. Colonels

The Army's first Special Order of 1960 promoted the following eight lieutenant colonels to temporary colonel, effective 4 January. They extend through No. 133 in Circular 624-73, dated 23 November 1959. Crawford, L. C. CE Reed, Russell R. Inf Holland, Edw. C. TC Townsend, C. F. CE Landon, Donald C. Inf Twining, E. E. Arty Looper, R. T. TC Ulrich, John A. OrdC

Lt. Col. Promotions Reach Number 538

The Army has promoted 14 majors to temporary lieutenant colonel in S.O. 2, effective 5 January. These advancements extend through No. 538 in Circular 624-47, dated 9 March 1959.

Arbuckle, R. C. CmiC Johnston, F. J. SigC Chadwell, R. C. TC McLendon, Geo P. Inf Cross, Wm M. Jr. Inf Nolte, M. C. O. Arty DePauw, W. D. SigC Norwood, Jas W. Inf Gavin, Edw. T. CE Roush, H. W. MPC Heekin, David P. Inf Syme, Jas O. Jr. TC Higginbotham, W. R. Yocom, Robt D. Inf

\$100 Million Missile School
The Army Ordnance Guided Missile School at Huntsville, Ala., is valued at \$100 million for buildings and equipment. The school was established in 1953.

U. S. COAST GUARD

Secretary of the Treasury—Robert B. Anderson
Commandant—Vice Adm. Alfred C. Richmond

THE Coast Guard is hopeful that the fiscal '61 budget will see its budget support increased again.

During 1959, the Coast Guard, under VAdm. A. C. Richmond, Commandant, had available funds of \$289 million, compared to \$275.4 million in 1958.

This permitted a slight rise in military strength from 30,128 to 30,448.

A year-end report by Admiral Richmond showed that the Coast Guard saved the lives or rescued from peril 2552 persons and responded to 28,342 assistance calls.

At the beginning of fiscal '60, the Coast Guard maintained 39,932 aids to navigation, including 60 Loran stations, 348 manned light stations and 32 lightships.

Coast Guard vessels maintained four ocean weather and search and rescue stations in the North Atlantic and two in the Pacific.

The Coast Guard had 184 cutters and buoy tenders in service, with 128 fixed and rotary wing aircraft.

The Coast Guard Reserve during 1959 reached a strength of 3874 officers and 29,173 enlisted personnel.

Retirements

THE Coast Guard retired 15 officers 1 January, including two captains, three commanders, two lieutenant commanders, three lieutenants, three chief warrants and two warrants.

The officers listed below ended their careers for the indicated reasons:

30 Year's Service—Lt. Peter Majkut; and CWO-3 Richard G. Degnan.

20 Year's Service—LCdrs. William C. Carber and Lloyd E. Franke; Lt. Julius O. Smith; CWO-2 James P. Magee; and WO-1 Theodore "J" Garbis.

Age—Cdrs. James G. Hopper and Leo T. Robbins.

Physical Disability—Capts. William J. Lawrence and William P. Hawley; Cdr.

Joseph E. Mallet; Lt. Cyrus Gray; CWO-2 Leslie E. Clausen; and WO-1 Peter Paul.

Assignment Changes

Commander
Thatcher, Frederick B. CGD9 (d1) to MIO, SFRan (SIO).

Lieutenant Commander
Bruce, John H. EVERGREEN (CO) to CGD1 (d1).
Changaris, Christopher S. CGD1 (d1) to EVERGREEN (CO).

Lieutenant
Hoch, Laurence J. CASTLE ROCK to CGD9 (d1).
Ladley, Arthur E. CGAD, Barbers Pt (Difot) to Wright-Patterson AFB (Difotins).
Larkin, Charles E. CGAS, SFRan (Difot) to CGAD, Barbers Pt (Difot).
McIntosh, David F. HQ (Duins to CL).
Russell, Carlton E. HQ (Duins to CL).
Wallace, Sidney A. CGAS, Elizabeth City (Difot) to CGAD, Barbers Pt (Difot).

Lieutenant (Jg)
The following officers are ordered from Advanced Flight Training at NAS Corpus Christi to the listed CG Air Stations:
Dunn, Jack W. to Annette Isl.
Finnegan, Thomas W. to Argentina.
Osborn, James C. to Salem.
Pasmore, George D. to Brooklyn.
Holtzman, Edward B. MENDOTA (Engr Trng to Engr Duty).

Ensign
Kingery, Bobby G. NAS, CorpC (Adv Flt Trng) to CGAS, Elizabeth City (Difot).

CWO-2
Bayers, Louis L. RECEN, Cape May to Institute.

WO-1
Collins, Robert J. W. WAL-534 (OmC) to Depot, Vancouver (OmC & GRUCOM).
Sanderlin, Sidney M. USNTC, Great Lakes (Duins) to CGD2.
Berry, Maxie H. Jr. Base, St. George to ROCKAWAY.
Quinlivan, John R. ROCKAWAY to RECEN, Cape May.

AF Will "Control Retire" 5,900 Reserves In 3 Years; First Board Meets In March

From first page—

number of officers will accumulate in the senior service category creating adverse effects on the level of experience of junior officers and a lessening of the ability of the Air Force to accommodate junior officers in the career segment of the force.

Here is how the new retirement program will be implemented:

1. All Reserve officers who are or will become eligible for voluntary retirement before 30 June 1961, will be requested to state whether they plan to retire voluntarily during FY 1961.

2. Officers who signify their intent to retire will be programmed for retirement.

3. Major commands will screen the remaining Reserve officers who are or will be qualified for retirement before 31 December 1960, using the following criteria and may nominate not to exceed 50% of these officers for retention: Essentiality to the mission; Skill shortages; Outstanding performance; and Specialized knowledge of a particular subject or project.

On receipt of the recommendations from the major commands, a central selection board will be convened at Headquarters USAF to make final selection of those officers to be released.

4. The Reserve officers selected for retention will barring unforeseen circumstances, be exempted from further screening for possible involuntary retirement until FY 1964.

ARMY WILL RETIRE THOUSANDS ALSO

The Army in the next three fiscal years also will retire thousands of Reserve officers upon completion of more than 20 years service.

The problem is less severe in the Navy and Marine Corps because of the special "Hump" legislation which accelerated retirements, and also because the Sea Services have smaller numbers of Reserve officers in the ranks of commander/lieutenant colonel and above.

5. Reserve officers who are not selected for retention will be scheduled for retirement beginning in September 1960 with additional monthly increments of retirement to occur until February 1961.

It is expected that those officers who are not selected for retention will be given at least six months' notice of their impending retirement.

Beginning in July 1960 those Reserve officers who will complete 20 years of service between 1 January 1961 and 31 December 1961 will be screened for retention or possible retirement in FY 1962. Similar action will be taken each year thereafter with respect to those Reserve officers who thereafter acquire retirement eligibility.

INDUSTRY IN DEFENSE

AF Secretary Gets Lockheed Briefing

PROGRESS being made on development of the satellite systems at the Lockheed Missiles and Space Division was reported to Secretary of the Air Force Dudley C. Sharp, left, in a briefing at the firm's Satellite Production building in Sunnyvale, Calif. Greeting Mr. Sharp, accompanied by Maj. Gen. O. J. Rittland, Commander, Air Force Ballistic Missile Division, and Col. R. W. Gustafson, Air Force Plant Representative, is R. R. Kearton, right, Assistant General Manager of the Lockheed Division. Three satellite systems are under way at the Lockheed plant for high priority Air Force programs including the Discoverer series, Midas missile defense alarm system, and the Samos strategic warning system. The tour and briefing was one of Mr. Sharp's first official acts since moving up from Under Secretary to be Secretary of the Air Force.

NSIA Will Honor Quarles And McNeil

The late Donald A. Quarles, former Deputy Secretary of Defense, and Wilfred J. McNeil, former Assistant Secretary of Defense now President of Grace Lines, Inc., have been named joint winners of the 1959 James Forrestal Memorial Awards, presented by the National Security Industrial Association.

Mr. McNeil will receive a citation and gold medal at a dinner 28 January at the Sheraton Park Hotel in Washington. Mrs. Quarles will receive the award honoring her husband.

Previous winners of the award are President Eisenhower, Brig. Gen. David Sarnoff, General Alfred Gruenther, Admiral Arthur W. Radford, and Mervin J. Kelly.

The award, honoring the first Secretary of Defense, is made each year to a distinguished American who has most effectively applied Mr. Forrestal's ideals to the concepts and requirements of national security.

Cessna President Tells Record Sales Year

Cessna Aircraft Company of Wichita, Kans., reports that sales during the 1959 fiscal year soared to \$105.7 million, an all-time record for the 32-year-old company.

Cessna President Dwane L. Wallace said, this represents a boost of \$9.9 million or 10% over the record level of 1958.

Sales of Cessna military products amounted to \$34.9 million. This was a drop of 17% from sales the previous year. Mr. Wallace stated the decline was due to completed contracts on L-19's for the Army, U-3A airplanes for the Air Force and subcontract components for the Lockheed T-33. Subcontract work on horizontal stabilizers for the Boeing B-52G declined as forecast due to an extension in delivery schedules.

G-E Gets New J79 Order

General Electric's Production Engine Department at Cincinnati has received orders totaling more than \$27.5 million in J79 turbojet engines and associated product support equipment.

The J-79 powers the Air Force Lockheed F-104 and Convair B-58 aircraft and the Navy McDonnell F4H-1 and the North American A3J.

Harlan Dewell Gets Garrett Military Post

Harlan A. Dewell has been named Manager of The Garrett Corporation's Los Angeles military relations office.

William J. Pattison, Vice President Sales, said Mr. Dewell will direct military sales planning and be responsible for coordination and liaison with military personnel and installations concerned with the use of Garrett products.

Seventy-four per cent of Garrett's income is derived from military sales.

Army Firebees Score Low Level Missions

Unprecedented remote radar control ability at low altitudes has been demonstrated in ground-launching tests of Ryan Firebee jet targets at the Army's White Sands Missile Range, N. M.

Army Firebees have been flown as low as 1000 feet altitude to a range of 21 miles from the remote ground controller.

An unusually high level of reliability for the new ground launching technique is reported after three months of exhaustive testing, during which the Firebee was ground launched 20 times.

In addition to proving the Firebee's low altitude capabilities, the jet target provided effective evaluation of ground-to-air missile systems also under test on the White Sands Range.

Ryan engineers pointed out that ground "clutter," resulting from electro-magnetic conditions associated with the earth's surface, is a formidable interference problem in radar control at low altitudes—a problem which becomes aggravated with increasing distance from the control station.

The performance of the Army Firebees has shown the feasibility of using it as a low altitude target to test and evaluate Army missile systems designed to combat low-flying aircraft.

The high altitude capabilities of Ryan Firebees have long been established. An Air Force Q-2C, most advanced production version of the Firebee, recently set an altitude record of 59,800 feet on a flight in which it remained in the air nearly 75 minutes of powered flight time prior to glide and parachute recovery.

L/C Kaputa, SigC, Retires

Lt. Col. Joseph M. Kaputa, Chief of the Scheduling Research Branch, Field Office Army Signal Board, Army Communications Agency, has retired.

Richard Davis, WWII Naval Officer, Named Douglas Director Of Public Relations

President Donald Douglas, jr., has announced that Richard J. Davis, a WWII Naval officer and well-known throughout the Armed Forces as a result of his long time coverage of military news, will become Director of Public Relations for the Douglas Aircraft Company of Santa Monica, Calif., effective 25 January.

Mr. Davis, who became Washington Public Relations Representative for Douglas early in 1958 after 18 years with *Newsweek* magazine, will succeed A. M. "Rocky" Rochlen.

Mr. Rochlen, Director of Public Relations and Vice President, will continue

his association with Douglas as a consultant.

At the same time, President Douglas announced that Howard P. Maginniss, Assistant to Vice President Rochlen, will succeed Mr. Davis in the Washington post. The Douglas office in Washington is directed by Lt. Gen. Ira Eaker, USAF-Ret.

Mr. Rochlen joined Douglas in 1937 to head its public relations department. During WWII he was a member of the Aircraft War Production Council and Director of Industrial Relations for the company's 167,000 employees. He was named Vice President in 1954.

Mr. Rochlen currently is National Chairman of the Public Relations Committee of the Aerospace Industries Association.

Mr. Davis, before joining Douglas, was Chief Pentagon Correspondent and Assistant Manager of the Washington Bureau of *Newsweek*. He has written extensively on aviation and is a member of the Aviation Writers Association. Mr. Davis was graduated from the University of Wisconsin in 1939.

Mr. Maginniss was Public Relations Manager and Assistant to the General Manager of the Douglas Tulsa Division before coming to Santa Monica in 1956. He set up the public relations department at Tulsa in 1942 after nine years with the *Tulsa Tribune*.

Mr. Davis

Mr. Maginniss

Honeywell Names Hueter To Head Seattle Laboratory

Dr. Theodor F. Hueter has been named by Minneapolis-Honeywell Regulator Company as manager of its Seattle Development Laboratory.

Vice President and General Manager Clyde A. Parton of Honeywell's Ordnance Division, of which the Seattle Laboratory is a part, said Dr. Hueter would be responsible for directing all of the laboratory's work in the fields of sonar, underwater ordnance devices and systems, radar and communications.

Dr. Hueter since 1956 has been manager of the acoustics department of the Raytheon-Submarine Signal Division. From 1950 to 1956 he was research associate with the physics department of Massachusetts Institute of Technology. For three years during his association with MIT he was technical director of the Massachusetts General Hospital medical-acoustics research group.

Col. Clark To Boeing Plant

Col. William A. Clark, Directorate of Procurement and Production under the Air Force Deputy CofS, Materiel, has been assigned to the Boeing Airplane Company plant at Seattle.

B/G Voorhees Joins Highway Trailer

Brig. Gen. Frederick T. Voorhees, USA-Ret., has joined Highway Trailer Company.

David B. Charnay, Chairman and President of Highway, said General Voorhees will serve as Technical Advisor for the company's containerization program, a newly-created post.

At the time of his retirement, last month General Voorhees was Special Assistant to the Chief of Transportation. During ceremonies held at Ft. Eustis, Va., he was awarded the Legion of Merit on 15 December, the second such honor awarded in 20 years of active duty in the Army.

Boeing Test Pilot Wins Edwards Award

A Boeing Airplane Company test pilot, Mr. Ralph C. Cokely, received two of the three top awards at the recent USAF Experimental Test Pilot School at the Air Force Flight Test Center, Edwards AFB, Calif.

The third honor trophy went to Capt. James C. Scheuer, USAF.

Mr. Cokely was presented both the A. B. Honts Trophy for best all-round achievement by a student and the Ekeren Award for outstanding flying ability.

Captain Scheuer was awarded the Empire Test Pilot Award, donated by the Royal Air Force test pilot school in England, for academic achievement. This award was presented by Group Capt. R. E. Burns, commandant of the Empire Test Pilot School.

The Air Force Flight Test Center Commander, Brig. Gen. John W. Carpenter 3d, was guest speaker during graduation ceremonies.

Eight of the new test pilots drew AFFTC as their assignment: Captains Scheuer, Marvin L. Evenson, Jimmie S. Honaker, Budd F. Knapp, William R. Looney, John R. Ludwig, Robert L. Moseley and Lt. Rial D. Lowell.

Other graduates and their assignments are: Captains Richard S. Bearman, WADC; Donald P. Maslen, WADC; John C. McClure, Whiteman AFB, Mo. (SAC); Foster A. Post, WADC; Cecil B. Smith, Cannon AFB, N.M.; and Mr. Harry E. Terrell, jr., of the Long Beach Division, Douglas Aircraft Co.

Former Wright-Pat. Scientist Solar Development Manager

Dr. Erwin O. A. Naumann has been appointed Manager of Development in the Research and Development Engineering Division at Solar Aircraft Company, San Diego.

Dr. Naumann will direct Solar's development projects involving avionics, structures, advanced studies, astroaeronautics, nucleonics and propulsion. He has been Solar's Chief of Advanced Studies, having joined the company in 1956 following nine years at Wright Air Development Center's Equipment Laboratory Wright-Patterson AFB, Ohio.

Raytheon Gets Army, AF Awards For SAGE, Hawk

Raytheon Company has been awarded a \$4.8 million contract by the Dayton AF Depot, Ohio, for production of 7600 high-power electronic tubes to be used in SAGE height finding radars.

Raytheon Company has received a \$2.3 million Army contract from the Boston Ordnance District for field maintenance equipment for the Hawk ground-to-air missile. The award was made as part of a continuing program on the Hawk system, for which Raytheon is prime contractor.

M/G Wray Names Key Staff Officers For New Wright Air Development Division

Appointments of key officers and civilians in the newly-established ARDC Wright Air Development Division at Wright-Patterson AFB, Ohio, are announced by Maj. Gen. Stanley T. Wray, Commander.

WADD was formed last month from elements of the Wright Air Development Center and the ARDC Directorate of Systems Management at Wright-Patterson. Establishment of WADD is part of an ARDC-wide reorganization to improve management and reduce the time required for development of new, complex aerospace weapon systems.

WADD has primary responsibility for planning, programming and managing the development of military aerospace systems, including aircraft, aerodynamic missiles, missiles associated with aircraft, manned aerospace systems and support systems, and for advancing the technology required for the development of these systems.

Including the previously announced Directors, General Wray listed the following organizations and personnel:

Vice Commander, Col. W. R. Grohs; Chief Scientist, Mr. J. E. Keto; Special Assistant to the Commander for Tests, Col. H. P. Huglin; Chief of Staff, Col. R. H. Macklin.

General Wray said the three principal operating elements of WADD, and personnel assigned are:

Directorate of Systems Management—Brig. Gen. J. R. Holzapple, Director; Col. J. J. Smith, Deputy Director; J. A. Boykin, Jr and P. R. Murray, Technical Directors;

Directorate of Systems Engineering—Col. F. J. Ascani, Director; Col. W. S.

Chairsell, Deputy Director; L. J. Char-nock, Technical Director.

Directorate of Advanced Systems Technology—Col. A. L. Wallace, Jr., Director; Col. J. R. Harris, Deputy Director; E. Kotcher, Technical Director.

Directly supporting the three Direct-orates, the staff and other elements of WADD will be:

Directorate of Procurement—Lt. Col. T. G. Watkins, Director;

Flight and Engineering Test Group—

Col. J. Davis, Jr., Chief; H. S. Lippman, Technical Director;

Supply and Services Group—Col. C. T. Merrill, Chief;

Maintenance Group—Col. K. T. Barth-elness, Chief.

At staff level, General Wray named the following Deputy Chiefs of Staff:

Plans and Operations, Col. D. S. Dun-lap, assisted by Col. K. O. Chilstrom, and J. L. England, Technical Director; Intelligence, Col. F. R. Feeney; Person-

nel, Col. T. V. Prochazka; Materiel, Col. D. B. Diehl; Comptroller, Col. M. P. Andersen.

Other staff officers are: Inspector Gen-eral, Col. R. S. Morrison; Office of In-formation, Lt. Col. M. Frank; Office of Administrative Services, Lt. Col. C. L. Thomas; Headquarters Squadron Com-mander, Lt. Col. D. A. Wolfe.

Others named were I. L. Schwartz, Chief of Protocol; Capt. P. R. Christian, Aide to General Wray, and Capt. R. E. Caudle, Aide to General Holzapple.

No Harmony In Service Bands

From first page—

nel, respectively, to their top band lead-ers.

Apparently least impressed with the need to give the prestige of rank to the head of its nationally spotlighted musical organization is the Army. It restricts the rank of the leader of the U. S. Army Band to major.

Here's a breakdown of the promotion progress made by the leaders of the four major Service bands:

U. S. Army Band, Ft. Myer, Va.—Maj. Hugh Curry took command of the band in 1943 as a warrant officer. He was promoted to major in 1952. He holds a Reserve commission as a lieutenant colonel, but his active duty grade is major.

U. S. Navy Band, Naval Gun Factory, D. C.—Cdr. Charles C. Brendler became Navy Band Leader with the rank of lieutenant in 1942. He became a lieutenant commander in 1947 and attained his present grade in 1953.

U. S. Air Force Band, Andrews AFB, Md.—Col. George S. Howard took charge of the Army Air Forces Band as a Captain (Major Curry was then heading the U. S. Army Band as a warrant officer) in 1944. He became a major in 1946, lieutenant colonel in 1949 and a colonel in 1951. He waves a second baton as Chief of Air Force Bands.

U. S. Marine Corps Band, Marine Corps Barracks, Washington, D. C.—Lt. Col. Albert F. Schoepper became leader of the Marine Band with rank of Captain in 1955. In 1957 he was promoted to major, and in 1958 was made a lieutenant colonel.

The Navy and Marine Corps bands are chartered under acts of Congress which restrict the grade of their leaders to lieutenant colonel-commander.

The Army or Air Force bands do not have legal restrictions on the rank that can be held by their conductors.

The Army Band, however, is governed by a standard Table of Organization and Equipment which limits the conductor of the band to the grade of major.

NEW EYES FOR A MACH-BUSTER

Twenty-twenty vision is practically total blindness compared to NASARR... the lightweight, compact, all-weather monopulse radar system produced by Autonetics.

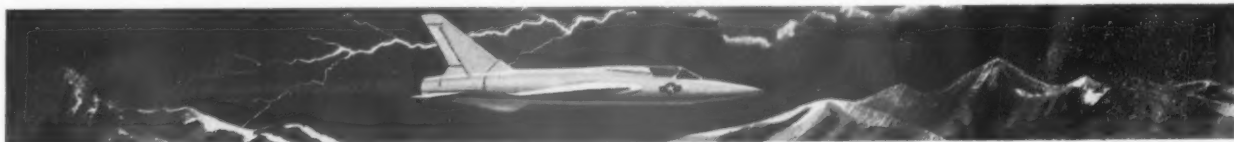

Let the targets hide where they will... in deep valleys... surrounded by jagged mountain peaks... covered by clouds. With NASARR aboard, America's attack pilots can find them all.

NASARR has an appetite for adversaries—seeks

them out in good weather or bad, day or night.

It is the *only* monopulse radar system in production that performs the standard radar tasks of search and attack for both hedge-hopping missions and those up in the stratosphere... as well as contour mapping and terrain avoidance.

Like all Autonetics systems, NASARR performs reliably and accurately—regardless of speed, altitude or temperature.

Armament Control Systems by Autonetics

Armed Services Committee Leaders Have Long Experience In Defense Legislation

From first page—

lege in his hometown of Milledgeville, Mr. Vinson was graduated from Mercer University Law School and served as a county prosecuting attorney and judge and as a member of the Georgia General Assembly before his election to the U. S. House of Representatives in 1914. He is 76 and is out-ranked in the 436-member House only by his close friend, House Speaker Sam Rayburn (D-Tex.).

Chairman Richard B. Russell (D-Ga) of the Senate Armed Services Committee begins his 28th year in the Senate. A graduate of the Gordon Institute, Barnes-

ville, Ga., he received his law degree from the University of Georgia, and, like Chairman Vinson, served as a county attorney and member of the Georgia House of Representatives. He was Governor of the State immediately prior to his election to the Senate in November 1932.

Chairman Russell will be 63 in November. He is the second-ranking member of the Senate and is beginning his 10th year as Chairman of the Armed Services Committee. During WWI, Senator Russell served with the USNRF.

Members in charge of personnel legislation on the two Committees are Sena-

tors Leverett Saltonstall (R-Mass) and John C. Stennis (D-Miss), who will complete 16 and 13 years, respectively, and Representatives Paul J. Kilday (D-Tex) and Leon H. Gavin (R-Pa), who are completing 22 and 13 years' service, respectively.

Representative Kilday, 59, the second-ranking Democrat on the House Committee, is acknowledged as the foremost Congressional expert on military personnel legislation. He is a law graduate of the Georgetown University.

Senator Saltonstall, 67, acts as the ranking minority member of the Senate

Committee. A graduate of Harvard and the Harvard University Law School, he served as a first lieutenant in the 301st Field Artillery during WWI.

Representative Gavin, 67 in February is the second-ranking Republican on the House Committee, to which he has been assigned since 1946. During WWI, he served as a sergeant in the 51st Infantry, Sixth Division.

Senator Stennis, who will be 59 in August, is a graduate of Mississippi State College and received his law degree from the University of Virginia. He served as a circuit judge before his election to the Senate in 1947.

Chairman Vinson

Rep. Kilday

Rep. Gavin

Senator Stennis

Senator Saltonstall

Col. Niemi Will Head Army EPG Personnel

Col. Arvo N. Niemi, Director of the Logistics at Army Electronic Proving Ground, Ft. Huachuca, Ariz., has been designated Director of Personnel and Administration there.

Colonel Niemi attended Michigan State University and was graduated in 1930 with honors as a Bachelor of Science in Electrical Engineering Administration.

He is a graduate and former faculty member of the Industrial College of the Armed Forces, Ft. McNair, Washington, D. C., and is a veteran of service on the former Munitions Boards. His career also includes duty as Signal Advisor to the Royal Netherlands Army with a SHAPE training missions.

Maj. Cribbs Gets Sqdn

Maj. Thomas J. Cribbs, former Operations Officer of the 498th Fighter Interceptor Squadron at Geiger Field, Wash., is the new Commander of the 538th FIS at Larson AFB, Wash. He succeeds Lt. Col. Homer C. Boles, assigned as Commander of the 325th Fighter Group at McChord AFB, Wash.

FIREBEE

AMERICA'S NO. 1 JET TARGET

The Ryan Firebee is America's most widely used jet target missile. It keeps more men, missiles and weapons systems combat-ready than all other jet targets combined. The Firebee is fast (over 500 mph)...high-flying (up to 50,000 feet)...reliable (30 minutes-a-flight average)...durable (up to 20 flights).

The Firebee is operational, "off-the-shelf" hardware. It is the exclusive target used in the

Air Force's Project "William Tell" Weapons Meets. The Firebee is the most realistic stand-in for "enemy" aircraft ever developed to test men and weapons.

Now an even more advanced version of the Firebee is in production at Ryan. The Q-2C Firebee, already on order by the Air Force, has flown at Mach .95 speeds and 59,000-foot altitudes.

RYAN OFFERS CHALLENGING OPPORTUNITIES TO ENGINEERS

RYAN BUILDS BETTER

AIRCRAFT • POWER PLANTS • ELECTRONICS

Ryan Aeronautical Company, San Diego, Calif.
